# CINEMA

— ARCHITECTS

**We are award-winning global leaders in the provision of bespoke AV solutions to the exacting needs of our international list of clients.**

Using the latest turnkey audio and video technology solutions and international best-practise, we are able to provide both smart home solutions and cutting-edge home cinema design.

In the home automation space, our specialties include multi-room WiFi and AV distribution, smart lighting, HVAC control, and security.

Our internationally-awarded bespoke home cinema solutions bring together the best international technology from exclusive brands and the best local talent, with skills and processes honed over four decades of operation. From conceptualisation to optimisation and design to installation and maintenance, Cinema Architects can handle every aspect of your home cinema.

For the modern home office, we offer secure high-speed internet for uninterrupted video conferencing with the latest VC hardware solutions.

With a sterling track record for product and service excellence, we've also won more International Awards than our local and international competitors, combined – establishing us as true market leaders.

---

# THE CONNECTED MODERN HOME

---

**The best way to add value to a home is by taking it into the next century with intelligent automation and a dedicated home cinema.**

Smart lighting, intelligent design, advanced security and unparalleled simplicity make our home automation systems smart, slick and unobtrusive – as they should be. An Intelligent home is designed to make your life safer, add convenience and simplify everyday tasks. It is a home that adapts to your lifestyle, designed to assist daily tasks. Smart homes are the new normal - and we are making them a reality.

---

# HOME CINEMA

## LEVEL EXPERT

---

**Our International award-winning home cinemas are individual showcases of perfection. We offer unparalleled attention to detail, captured in an extensive planning and design phase, with multiple professional inputs including advanced software-aided design and individual acoustic tuning.**

Every aspect of ensuring an immersive cinema experience is covered, from custom-designed acoustic panels to purpose-built furniture and seating, all merged seamlessly with unobtrusive technology that provides the best possible AV experience. We offer a start-to-finish service for the development, remodelling or upgrading of home cinema spaces. Cinema Architects is the only company globally to have won a trio of CEDIA, CePro, and design et al. International awards for "Best Home Cinema."

IT TAKES SMART PEOPLE TO BUILD AN

# INTELLIGENT HOME

**Cinema Architects has more CEDIA\* and HAA\* qualified people on our team than anyone else in South Africa.** This matters because smart home technology is evolving at an incredible pace – one which our team is setting, not simply keeping up with. Our teams combine expertise with discretion, talent with humility and can seamlessly bring together your needs with the latest technologies and trends to deliver unparalleled solutions. The simplicity of operation belies the incredibly advanced technology that we bring to your home automation and cinema solutions.

# RE-WRITING

— THE RULEBOOK —

**Having led the global field for over four decades with unmatched innovation and creativity, we're harnessing our spirit of invention to take smart homes into the future.**

To truly understand the benefits of a seamless smart home experience or marvel at the power, subtlety and luxury of premier home entertainment systems, you have to experience them for yourself. Our new, world-leading signature experience centre showcases the full modern connected home experience, using the latest international technologies and the finest finishes. There's nothing like it in South Africa – or likely, the world – giving Cinema Architects yet another first - and we can't wait to show it to you.
