2x Base

2x Hanging Kits

4x Thumb Screws

4x Screws

Warnings

Before using the AQUAVIVO LED Aquarium Light please read the operating instructions carefully and follow these safety directions:

1. Retain manual in a safe place for future reference.
2. Remove plastic and packaging material protecting the fixture before use.
3. For indoor use only. Use the specific attachments, mounting frames, hanging kit and accessories provided by AQUAVIVO to avoid damage.
4. To avoid eye damage, never look directly at the light when switched on.
5. To avoid electric shock, do not touch the unit with wet hands.
6. Position electrical cables carefully to minimise tripping hazards.

Maintenance

1. Follow operating instructions when using the AQUAVIVO LED Aquarium Light.
2. Keep the unit away from direct heat, including direct sunlight, fire or radiators.
3. To reduce the risk of fire and electric shock, do not expose the light, plug or cables to rain, moisture, dripping or splashing.
4. The unit should be positioned in a well-ventilated area.
5. The unit should be situated away from equipment or devices that generate strong magnetic fields.
6. Clean unit with power off and using a dry cloth only.

Installation

Figure 1.1

Figure 1.2

- ① Insert struts into the base and tighten screws to assemble expandable brackets (figure 1.1).

- ② Insert expandable brackets into light unit (figure 1.2).

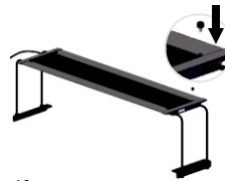

Figure 1.3

Figure 1.4

- ③ Screw the four thumb screws into the holes on top of the light unit to keep the expandable brackets in place (figure 1.3).

- ④ Position the unit on top of aquarium and change length of expandable brackets to fit the aquarium (figure 1.4). Tighten the thumb screws. Ensure a tight fit.

Hanging Installation

Screw the ends of the hanging kits into the light unit (figure 2.1) and use suspension cables to hang light.

Operating Instructions

Timing Indicator

Timing Button

Brightness Button

Power/Mode Button

Memory Function:

If the unit is shutdown or loses power, the program settings will remain the same when the unit is powered on again, however the time that the unit comes on will need to be reset.

ON/OFF :

Press and hold the Power Button  for 2 seconds. This will turn the light on or off.

Switch Mode :

Press and immediately release the Power Button to change between modes. There are three modes:

- ① All LEDs (White + Red + Green + Blue + Purple)
- ② 2 Outer rows of LEDs (White + Red + Green)
- ③ Inner row of LEDs (White + Red + Blue + Purple)

Brightness Adjustment :

Press and immediately release the Brightness Button to change the brightness. 100%→75%→50%→25%;

Lightning Mode

Press and hold the Brightness Button for 2 seconds. The lightning mode will now be on. In lightning mode, LEDs flash for 5 seconds.

Timing Mode :

Press and immediately release the Timing Button

6H→9H→12H→Timing OFF

E.g. 6H mode: Light turns on for 6 hours from when set, then off for 18 hours.
