

rotipouch

rotipouch is an insulated fabric pouch that keeps your rotis fresh and warm!

Don't worry about anyone late to the dinner table, just put rotipouch into the microwave (yes it's microwave safe) and your rotis will be heated to perfection and ready to eat.

- rotipouch has been designed to hold rotis of all different sizes, it can hold up to 10 rotis at one time.

- rotipouch is BPA-free and made with high temperature resistant polyester with insulated interior liner

- rotipouch can also be used for pitta bread, naan bread, pancakes and wraps. If it will fit in there, it will stay warm!

rotipouch

How to keep rotis warm

Place your freshly cooked rotis straight into the rotipouch, and serve.

How to reheat rotis

1. Place roti (or whatever bread type you are warming) inside the pouch
2. Place the rotipouch into the microwave and set desired time
3. Remove from microwave and serve

Microwave times*

Quantity	Time
1 - 3	40 seconds
4 - 6	50 seconds
7 - 10	60 seconds

**Times may vary with different microwaves and sizes or thickness of rotis, the above is a guideline*

Note

- Be cautious of heat when reheating rotis & taking out of pouch
- For microwave use only, not conventional ovens
- Never heat for longer than recommended
- Avoid contact with flame
- Do not place oily or fried food in the rotipouch
- Always put rotipouch on a heat-resistant surface
- To clean, gentle machine wash or hand-wash. Air dry only
