

Upgrade your cultivation plans and leave no bud behind. By utilizing our specially designed under canopy lights, you can maximize your growth and yields by illuminating the previously underlit areas of your plant.

Improve B-bud structure, density, and coloring.

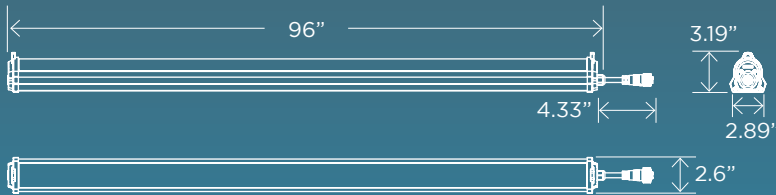

Compact and lightweight, easy to work around for harvest or quick to uninstall when between trellis layers.

Optimized full spectrum proven by growers for veg and flowering.

IP65 rated for easy cleaning and protection from IPM sprays, irrigation leaks, and employees getting crazy with the watering wand.

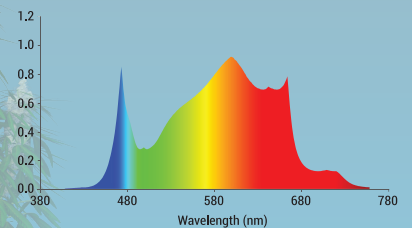

Power chaining and data chaining through same connections, no extra wires required.

### TECHNICAL SPECIFICATIONS

Wattage	<b>250W</b>
Voltage	<b>120V-277V</b>
PPF	<b>650 μmol</b>
Working Temp.	<b>0°F to 104°F</b>
AMPS @ 120V - 1.04A 208V - 0.60A 240V - 0.52A 277V - 0.45A	Daisy chain option 8 pcs @ 120V 15 pcs @ 208V 18 pcs @ 240V 20 pcs @ 277V

### FULL SPECTRUM +IR

Optional telescopic legs adjust the light coverage perfectly to your under canopy or use the mounting loop to hang the lights from above.

1x under canopy light covers 4' length of under canopy, add a second row to further increase your yields.
