

# Mini Instruction

## How to use Silicon Candle Moulds

1. Prepare Manual Drill or Craft Knife.
2. Cut/Drill a little tiny hole on the base of Candle moulds.

Thick sewing needles may help push the hole.

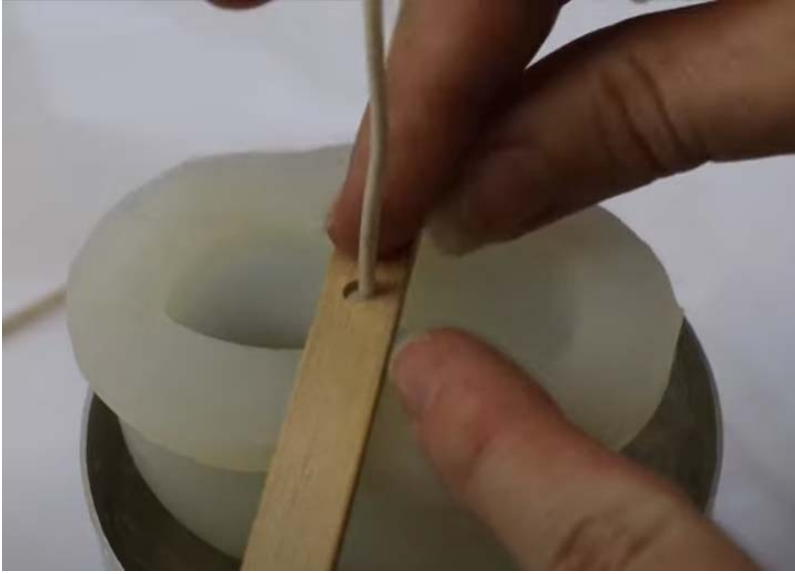

3. Push the cord wick into the hole.

4. To make sure the wick in the middle of top of mould,

**you can use a wood stir stick with a hole.**

**5. Then you can pour wax into mould.**
