DO YOU HAVE Life Insurance?

If you don’t have life insurance yet or do but are considering a new policy, low automatic payments set up your gift for so much more impact in the future.

If you do have a life insurance policy and would like to support the Kindness Ranch animals, there are two ways you can use your policy for good:

01 Designate Us!
You may choose to name Kindness Ranch as a full, partial, or contingent beneficiary of any policy, including your employer sponsored life insurance at no cost to yourself!

02 Directly Donate!
If you no longer need a life insurance policy (whether paid in full or with ongoing premium payments), you may choose to donate outright to Kindness Ranch where we would have the option to either hold or surrender the policy to receive the cash value at the time of the donation.

Remember you may be eligible for tax savings when naming us as owner of the policy, and if you continue to make premium payments post donation, they are tax deductible. Ask your insurance provider for more details!
IN ADDITION TO OUR CATS AND DOGS, WE HAVE A VARIETY OF BARN ANIMALS INCLUDING POTBELLY PIGS!
"We have both always been huge animal lovers, especially my wife. Since learning about the great things the Kindness Ranch and their staff do to rehabilitate and support animals used in lab testing, it’s really opened our eyes to this industry and how all of us can help these precious animals have a good life. We look forward to every visit to the ranch and thank all their staff for their dedication and hard work."

Our Past, Present and Future

The start of happily ever after...

"My name is David Groobman and I founded the Kindness Ranch for research animals in the beautiful rolling hills of Wyoming specifically to rescue, rehabilitate, and find new homes for as many of these retired research animals as possible.

If you’ve ever had a companion animal of your own, you know the incredible healing power of gentle hands and loving hearts. In the case of research animals, this power is especially potent. And a healing, affectionate home environment is exactly what we provide here. The air and water are pure and there's plenty of room for the animals to run free or to be walked, to graze, to play, and to roll in the grass. And the small, low-impact, energy-efficient wooden yurts shared by the animals, staff and volunteers blend in with the natural landscape to create a sense of peace and safety."

Our hope is that one day our work will no longer be necessary. Until then, our mission is to help as many animals as possible: rabbits, cats, dogs, and farm animals, including pigs, horses and sheep — all from research facilities of one type or another. With the selfless support of our animal-loving community, together, we will continue providing second chances worth giving.
