Apparently now that the abuser can no longer deny he beat the kids and I he's flipping the script. Now this pathetic piece of shit is claiming he was physically abused and I guess to him this is the best way to justify what he did to us? Maybe he's claiming that he couldn't handle it anymore?? I don't know □□♀□.. sharing a partial message from a someone he's shared this lie with and who knows maybe they believe it and it doesn't matter ..to me it's a sign of sheer desperation in justifying his disgusting behavior or maybe he's going to pimp out a legitimate cause like he does parental alienation in hopes to get sympathy and audience.ehh.. who cares if he's believed or not.. the truth is the children know what happened and so do all that were around us for the past 20 years .. sometimes I think when he beat me
