

Sit Stand

QUICK START GUIDE

- ① Check that your packet has all the parts listed here.

②

Unwrap the tabletop and place it back in the cardboard box. (Up-side-down of course, silly)

③

Fasten the table leg to the desktop using **8** medium screws and an hex key.

There's also an handy clip with sticker on it that you can use to secure the loose cable to the bottom of the tabletop.

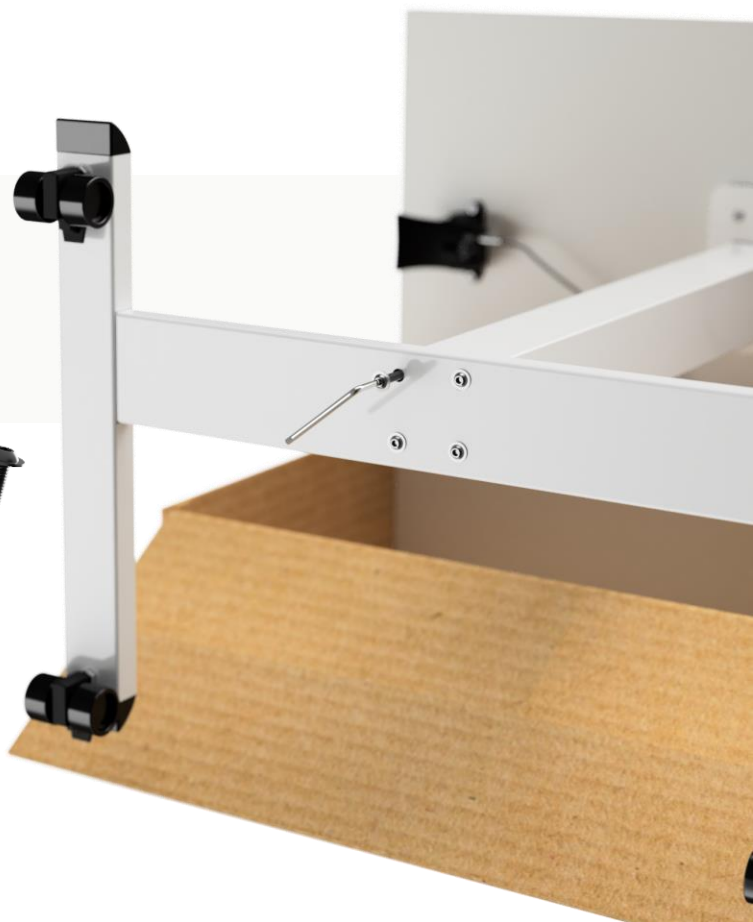

④

Fasten the controller to the desktop using **2** small screws.

⑤

Flip the desktop with the leg attached on it's side in the box and fasten the H-base with casters using **4** big screws.

All done!
ENJOY!
