

# The Universal bag by Anya Hindmarch Q&A.

## What is the Universal Bag?

The Tesco Universal Bag is a new reusable bag created by famous fashion designer, Anya Hindmarch.

## How much does it cost?

£10 per bag

## Can I buy as many as I want?

The bags are in extremely high demand, so to ensure as many customers can benefit as possible, we're limiting them to two per customer. Thank you for your understanding.

## What happens if a customer needs a replacement bag within the 10-year guarantee?

- If the bag is used appropriately, it will last for at least ten years (NB. weight limit is 12kg)
- This initiative is designed to reframe thinking around the traditional shopping bag – it's changing the mindset from being something which is replaceable, to something that is long-lasting and that customers feel inspired to take care of.
- If for any reason the bag is faulty, the customer should return it in store or, following the guidance on the bag, return it using the bag's freepost envelope enclosing their return name and address
- NB: The bag must be faulty to be replaced

## What are the benefits?

- The Universal Bag is made from 100% recycled materials, designed to save plastic from landfill.
- It has a unique system to enable easy local 100% recyclability for free. You simply fold into the built in pouch that includes a freepost address and put it in your nearest post box without any further packaging or postage required.
- It's designed to be desirable and inspire greater reuse.

## Why is Tesco stocking this bag?

- Tesco is committed to serving customers, communities, and the planet a little better every day.

You can read more about our commitment to sustainability at: [tescopl.com/sustainability](https://tescopl.com/sustainability)
