CHICURA

A DANISH DESIGN BRAND

We love it when designs are created with a deeper meaning. While keeping in mind the design's objectives and the chosen materials, it's also essential to ensure that the designs contribute positively to the environment.

ChiCura's products are therefore created with the following in mind*:

- Sustainable production.
- Use of recycled materials and discarded wood.
- 100% animal-friendly products.
- Always giving back.
- Multifunctional designs.
- Designs that challenge us to improve our quality of life.
Either through quotes with deeper meaning or informative text.
- Reminders of good habits and help in maintaining focus on the things that matter to us in everyday life.

*The majority of the products are created with all these points in mind, while others are designed with selected points in mind.

MAGNETIC DOTS

Introducing the Magnet Dot:
A design product that brings a fresh and creative approach to displaying artwork. These small, round wooden dots feature magnets on the back, allowing them to be securely attached to a brass plate mounted on the wall. Say goodbye to traditional frames and embrace a whole new way of showcasing posters, art cards and children's drawings, etc. Not only does the Magnet Dot provide a practical solution for displaying artwork, it also adds a touch of creativity and aesthetic appeal to your home decor.

The Magnet Dot offers endless possibilities. Experiment with different arrangements and compositions to curate a personalized and ever-evolving art display. Swap out artworks effortlessly and let your creativity run wild.

MANY COMBINATION POSSIBILITIES

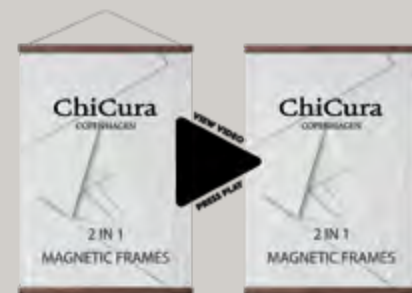

2 IN 1 MAGNETIC FRAMES

The magnetic frames give a simple and fine expression. Reflections are avoided as will normally occur in a glass frame. In this way, the artwork is seen as intended by the artist.

The frames are very easy to mount and you can quickly and easily change your poster in the magnetic frames if you later on wish to go for a new look.

[View Video -->](#)

Two ways to mount the frames.
With or without the string.

TRADITIONAL FRAMES

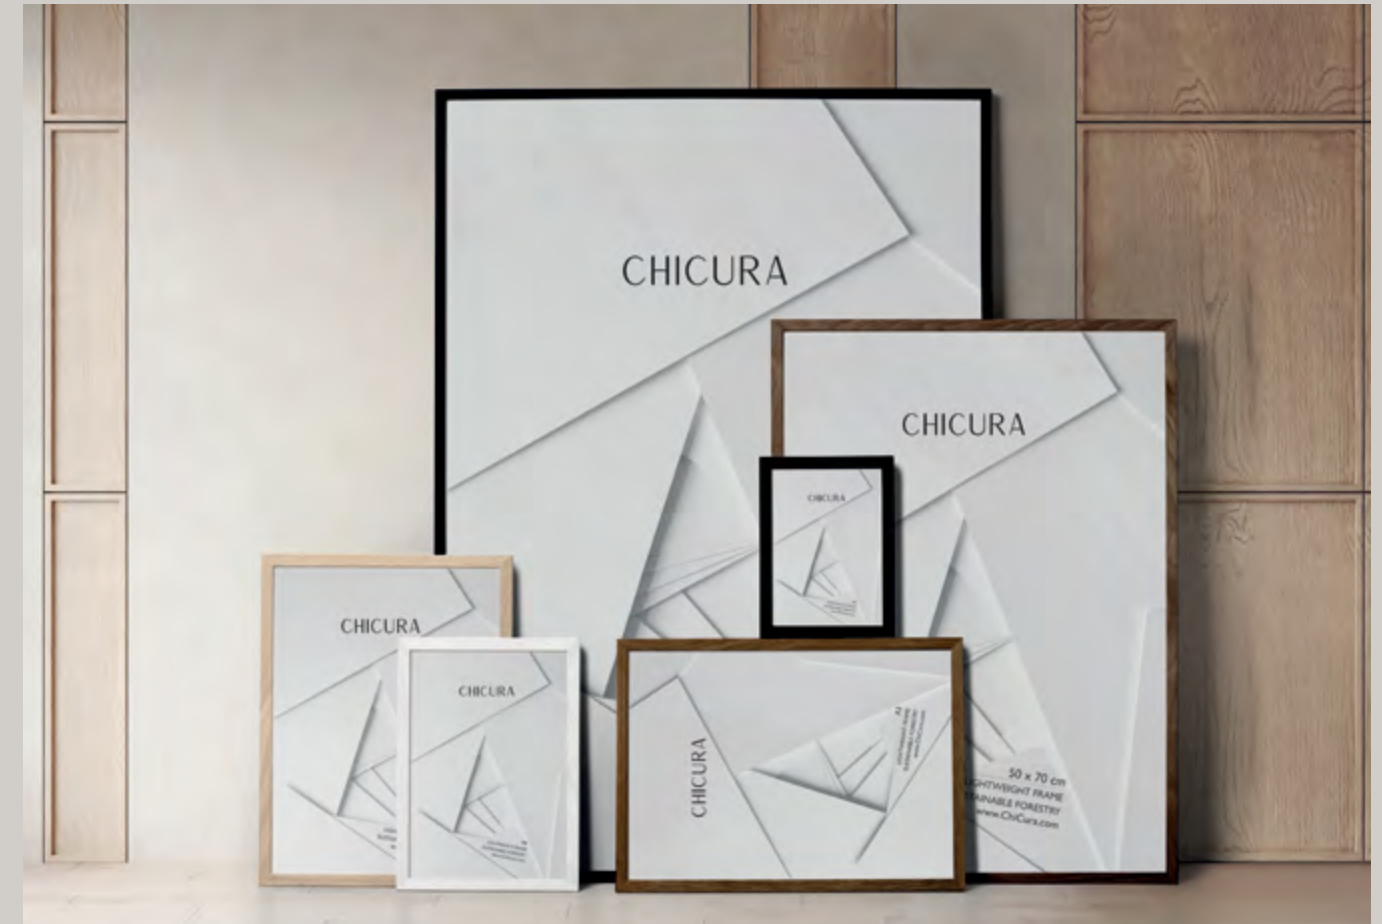

Our traditional frames are all available with acrylic, anti-reflective acrylic or real glass. The black alu frame is also available with anti-reflective glass in selected sizes.

The alu frames are high quality and made with steel from Germany.

The wooden frames are solid oak and we use european wood. They are manufactured in EU and by the use of sustainable wood production.

High quality back closing system.
A5 & A4, include both hangers and easel back.

Special sizes or colors - contact us for quote.

THE MINDFUL HEART COLLECTION

POSTERS WITH UPLIFTING AND HELPFUL MESSAGES

With our Mindful Heart Collection, we hope to be able to contribute with beautiful decoration for your home. But at the same time the collection is meant to challenge us to improve our own quality of life. Either by means of quotes with a deeper meaning, but also via informative text.

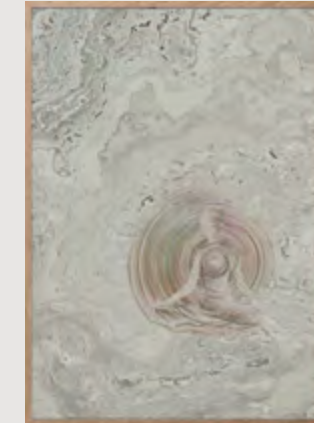

They can remind us of good habits and help us to keep fokus on the things that matter to us in everyday life.

We are all targets for numerous inputs on a daily basis and it is therefore extra important to become aware of our thoughts and what we choose to focus on.

ENNEAGRAM TYPES

As an effective tool for personal development, the Enneagram is fantastic. It can support you in becoming better at conflict management, communication and cooperation and thus improve relationships in your life. But most importantly, it can help you with greater understanding and acceptance of yourself and the people around you.

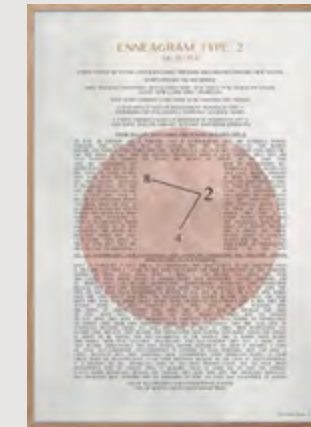

As the series is made with the aim of supporting and helping to increase the quality of life of the individual, the not so positive human qualities are also included.

In this way, you can better conclude how far you are in the process to reach where you want to be. This makes it easier to decide which step to take next.

We hope that this collection can be a support in your own development of your human qualities.

H.C. ANDERSEN

Reinterpretation of the iconic ILLUSTRATIONS made by the beloved fairy tale author H.C. Andersen.

Hidden messages challenge us and can shape us as human beings over time. More than 100 years ago, H.C. Andersen sat and made his adventurous illustrations, and with this feeling Charlotte Lavian designed this poster collection of H.C. Andersen's famous illustrations. The posters are based on trend colors and some of them include small unique quotes that originate from H.C. Andersen's own collections.

About H.C. Andersen:

Hans Christian Andersen was something special: full of contradictions, nuances and facets.

Throughout his life, the poet devoted his enormous talent to a crucial task: understanding oneself and what it means to be human.

His life and art make the world a richer, deeper and more wonderful place.

In order to amuse his friends and their children, Hans Christian Andersen made his paper cuts. The paper cuts were not only meant to be a pleasure for the eye but also a challenge for the mind.

Often there was a hidden meaning in them - in the same way that we know it from the fairy tales: on the surface it could amuse, in depth it would amaze.

Some of the paper cuts are purely picture puzzles or rebuses, others are icons combined to represent a linguistic symbol.

The double meaning hidden in the paper cuts demonstrates the fairy tale author's way of thinking. It reveals an utmost modern way of thinking, using the word not as a media to create meaning but as a material of meaning itself.

#dogoodprojects - LAND OF HOPE

Why not, if it's possible and it always is, one way or another... A big wish we had when we first started ChiCura was to be involved in different projects along our way. Projects where we can contribute with our creative ideas, our time and by donating.

In 2019 we started a cooperation with Land Of Hope. It was a cooperation based on the creativity of the children at Land og Hope. They made beautiful paintings which can be acquired as either posters or art cards.

So far the childrens art has raised DKK 75.000,- (€ 10.000,-). And this is only the beginning. Imagine how proud these children are when they see and hear about that their own art are hung in many homes around the world.

Land Of Hope runs the biggest children center in West Africa named "Land of Hope" where 72 homeless and tortured "witch children" have been rescued, given a secure and loving home and an education. Donations to Land Of Hope will be used to safeguard the running of Land of Hope, which includes school and education fees, food, nutritional and medical care, hospital treatment of tortured children, clothing, staff salary, operation and maintenance of Land of Hope and advocacy programs.

"We love to work with our children and help them achieve their dreams. The transformation of our children is very powerful. From the day we rescue a child, to the day that same child becomes top of the class is truly an amazing journey to witness. We believe that every child deserves the best start in life. In all the vices of the world children are the most vulnerable.

It's our responsibility to protect, love and care for our children. To give them a qualitative education. Education provides the children with knowledge about the world. It paves the way for a good career. It helps build character. It leads to enlightenment. It lays the foundation of a stronger nation."

- Land Of Hope -

THE RUN-UP TO CHICURA

The founders of ChiCura, Charlotte Harbo Lavian and Daniel Lunding Lavian, joined forces in March 2010, in a professional sense. In addition to being work partners, they have also been a couple in private since 2007. The idea of independent living was a high priority for both of them, so they quickly agreed that it should be tried out.

Daniel and Charlotte each come from two very different backgrounds, which makes them strong together. Daniel has the financial and strategic business background. After graduating, he played a major role in several growth companies.

Charlotte is from the more creative, visual industry and has worked in various major photography houses before 2010. Since then, she has worked independently as a photographer and a retoucher.

In 2010, they founded the photography house CH Touch where Charlotte worked full-time from the start. Over time, Daniel spent more and more time in the company and eventually had to quit his regular job to follow a shared dream. It turned into a healthy business with its own photo studio, first in Amager, then in Herlev. Here, there was room for employees. They were responsible for pictures for major Danish and international brands. But after working with different brands for a number of years, the dream grew.

Suddenly, CH Touch became the springboard for a new adventure that became ChiCura, which Daniel and Charlotte started working on simultaneously.

Here, they started with photo art, since they had already created a perfect breeding ground for this, and over time ChiCura has become much more.
