

Patient Centric

SIGMA Spectrum Infusion System

Patient-Centered Smart Infusion Pump

- Configurable Dose Error Reduction Software (DERS) to help reduce pump-related adverse drug events
- Infusion delivery profiles enable automated ramped delivery or manual multi-step infusions
- Customizable Master Drug Library (MDL) for each facility and therapy type
- Optional wireless communication and Continuous Quality Improvement (CQI) reports provide infusion log information to help monitor therapy compliance

Small and Easy-to-Use

- Compact size, portable
- Bright, large-type, color display is easy to read
- Pump-guided programming with prompts
- On-board, digital help screens

Cost-Effective

- Utilizes Baxter's standard IV administration sets to help reduce set up time while minimizing free-flow
- Standard IV administration set used for both gravity and pump infusions
- Long-life, rechargeable, lithium-ion battery virtually eliminates the need for disposable batteries

SIGMA Spectrum is an easy-to-use pump with Dose Error Prevention Software and standard IV administration sets.

- Portability enables patients to transition easily between various sites of care.
- Reimbursement support in the form of overviews on coverage, coding and payment for infusion devices.

Our portfolio of products and services reflects our commitment to provide customers with value across various sites of care.

SIGMA Spectrum Infusion System

Spectrum Pump Product Code #	35700 BAX
Battery Product Code #	35724
Pump Weight With Standard Battery	25.5 oz without pole clamp 33.5 oz with pole clamp
Rates of Infusion	0.5 - 999 mL/hr
Size (Dimensions)	5.8" H x 4.2" W x 2.5" D

Utilizes Baxter's standard IV administration sets to help reduce set up time while minimizing free-flow

Small size facilitates patient movement

Removable, rechargeable battery pack for easy replacements

Bright, easy-to-read display with drug and therapy information

Visual indicators provide infusion and battery status at all times

(Actual Size)

Keypad to quickly spell and find drug names

Infrared data port for drug library transfer when wireless communication is not available

Please see manufacturer's full prescribing information.
