About the Artist

The idea for her designs was born in the small village of Villars-sur-ollon. Inspired by the beautiful cows she saw grazing in the surrounding landscape, she decided to put them on porcelain dishes and decorative items. Each design and idea starts off painted by hand, with a touch of finesse and sweet memories of Switzerland.

Oh La Vache !

Oh La Vache offers a wide variety of tableware and home accessories that bring a breath of fresh mountain air into the home! All products are made in Europe and Switzerland with the utmost effort to support local artisans and small European businesses that follow sustainable practices.

All products are available on the oh la vache website.
