# About Jema Autolifte:

Jema Autolifte is a family -owned company that was started in 2007, and Jema Autolifte has, through innovative design, expansion and expertise, expanded the business so that today we are fully represented in more than 12 countries around the world with sales offices in Sweden.

All of our innovative lifts and products are designed, developed and tested by Jema Autolifte, therefore we have 100% "hands on" when the CE certifications and tests are performed in the house. Jema Autolifte's products are exported daily to our network of distributors around the world.

Jema AutoLifte has developed a wide range that is manufactured in Europe and we also offer our Basic Line series from Asia produced by the best materials on the market.

### Scissor car lift Mobile Service

A fantastic priced auto lift - The scissor lift JA2.8Mini model 2021 is a really user-friendly and Europe's cheapest service scissor lift on the market, which is the obvious solution for the private user or preparation / tyre changing workshop.

The scissor lift that makes your life easier in the garage, get away from working on the floor with a jack and axle stands. The JA2.8 Mini scissor lift takes up minimal space in the workshop, and despite its minimal size, still lifts cars up to 2.8T, and lifts to a working height of 120cm.

The scissor lift is mobile and the mobile kit is included in the price. Being mobile means you have the freedom to take the car lift outside in good weather, or if the needed to move it around the workshop floor. We know that with so many different vehicles on the road that the mounting points are all at different heights, we have included in the price 2 different types of rubber pads / height adaptors which make it easier and safer to load the lift.

JA2.8Mini is easily mounted to a 220V socket, and only requires 10L oil to operate. The scissor lift is CE approved as your safety is paramount us.

### JA2.8Mini

- Hydraulic
- 220V
- Max. lifting height: 1200 mm
- Total width: 1011 mm
- Mini. height: 135 mm
- Total length: 1515 mm
- Lifting capacity: 2800 kg
- Wheel kit is incl.
- Danish Design

### Runway Scissor car lift

JA9000S-E

Are you in need of a high quality alignment lift? This scissor lift is for the workshop that wants the highest quality product in its class. The JA9000S-E Euro line runway scissor lift can be mounted on the floor or immersed in the floor.

This product is 100% produced in Europe, with a very high finish giving it a very aesthetically pleasing look to your workshop. The scissor lift easily glides up to a maximum height of 188 cm and a SWL of 5.5T. The scissor lift is only 22 cm high when it is completely down. The scissor lift JA9000S-E is connected to 380V and is ready for alignment, which means that you as a user are 100% covered for any task your workshop requires.

- Hydraulic
- On-ground installation
- Hydraulic
- Fully automatic
- Lifting capacity: 5500 kg
- Lifting height: 1880 mm
- 380V
- European produced

JA3500S-E

- Hydraulic
- On-ground installation
- Hydraulic
- Fully automatic
- Lifting capacity: 3500 kg
- Lifting height: 1950 mm
- 380V
- European produced

### Mobile Service Scissor lift

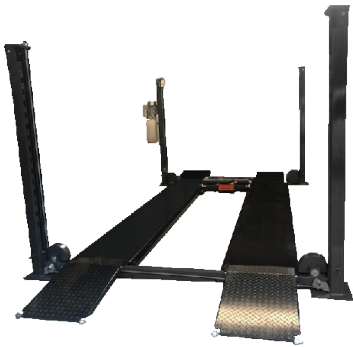

Scissor lift JA3000S-E is a Euro line product from Jema Autolifte!

- Hydraulic
- Fully automatic
- Lifting capacity: 3000 kg
- Lifting height: 960 mm
- 380V
- Mobil kit optional
- European produced

The lift is made of the best components and is therefore simply top quality. The lift quickly reaches 960mm and takes cars up to 3000 kg. The JA3000S-E scissor lift locks in the piston / hydraulics, so you do not need to connect compressed air, it just needs to be connected into 380V connectors.
