## *How to Drive Components:*

### **INSTRUCTOR GUIDE**

Contains everything an instructor needs to teach the course. PowerPoints and all videos are included.

### **STUDENT TEXTBOOK**

A comprehensive and engaging tool to train students and instill safe driving habits.

### **STUDENT WORKBOOK**

In-class companion for students. Contains assessments, fill-in-the-blank exercises and learning activities.

## **CURRICULUM CONTENT**

How to Drive meets the content standards for both ADTSEA (American Driver & Traffic Safety Education Association) and DSAA (Driving School Association of the Americas).

American Driver & Traffic Safety Education Association

Driving School  
Association  
of the Americas

# RESEARCH-BASED CONTENT

# NEW OR EXPANDED CONTENT

SAFE TRAFFIC STOPS

SLOW DOWN/MOVE OVER LAWS

VULNERABLE ROAD USERS

VEHICLE TECHNOLOGIES

DRUGGED DRIVING

SLEEP DEPRIVATION

## OTHER CORE TOPICS COVERED:

Space Management / Vision & Perception / Traffic Controls / Night Driving  
Managing Time & Space / Adverse Conditions & Emergencies  
Knowing Your Vehicle / Aggressive Driving & Road Rage  
Natural Laws & Space Needs

# APPLICATION LEARNING

The latest research on teaching and learning is applied throughout the How to Drive curriculum—engaging students, deepening learning, and fostering the development of lifelong learning habits.

## CONTENT DELIVERY

### BAMCAM CRASH VIDEOS

Over 50 authentic videos of teens experiencing non-injury crashes.

**SNAPDRIVE EXERCISES**  
Increase students' ability to quickly assess the traffic environment.

### TARGETZONE EXERCISES

Develop students' skills to know where to look in a given traffic scenario.

**MULTITASKING DEMONSTRATIONS**  
Have students convince themselves that it is unsafe to engage in secondary tasks while driving.

# DRIVERZ.E.D. HAZARD PERCEPTION TRAINING

## Integration of the Risk Awareness and Perception Training (R.A.P.T.) Program

R.A.P.T. focuses on 3 goals:

- Increasing awareness of potential road hazards
- Improving ability to respond to those risks
- Reducing distracted driving and improving mental focus

NHTSA's research solidly supports using R.A.P.T. to train novice drivers.

This program has shown to provide an actual crash reduction.

# STUDENT WORKBOOK: ACTIVE LEARNING TOOL

Comprehensive classroom learning tool with:

- Engaging lesson-related exercises and quizzes
- Tear-outs for physical equivalent exercises
- Framework to create a Personal Driving Plan
- In-car Parent Coaching Guide
