Singapore's Premium and Value For Money Tankless Water Purifier

Enjoy the perfect temperature with a touch of a button — choose from 6 different temperatures to match your needs. No wait time, no effort... just pure convenience and efficiency.

- 💧 **Cold temperature: 4° and 15°C.**
Beat the heat with instant ice cold water.
- 💧 **Room temperature**
- 💧 **Warm temperature: 50°C.**
Good temperature for baby milk.
- 💧 **Hot temperature: 70°, 87°C.**
Ideal temperature for your coffee, tea or hot choco.

Advanced Filtration System: 3 Filters, 8-Stage Filtration

Equipped with up to 8-Stage Filtration System to make sure you get fresher, healthier and purer-tasting water.

Advanced Self-Cleaning: Fresh, Purified Water At All Times

01

ELECTROLYTIC WATER STERILIZATION

Pumps out any stagnant water and cleans up mineral deposits. This helps to keep the water flow path clear.

02

UV NOZZLE STERILIZATION

A UV LED right on the nozzle automatically turns on to further sterilize the water you're dispensing – so you get fresher, cleaner and healthier water every time.
