Can you exercise while on the HCG Diet? Yes! Why? Each person has a customized amount of daily calories based on sex, age, height, and weight. Is the exercise excessive? No, in fact it's quite simple yet highly effective. □ Exercise routine while on hCG diet: power walking sessions for 30-45 minutes every other day. During the power walk you can incorporate pushups til failure (3 sets), planks (3 sets; 1 minute hold), or both. THATS IT! Over training while on hcg is not recommended. You want cardio as mentioned above that is low impact and does not create excessive soreness and retention of fluids.
