Stainless Steel Wire Composite:

- A. 37 AWG Solid 304 Stainless Steel/NOM OD: 0.0045
- B. 1000 Denier Polyester Strength Member/NOM OD: 0.10
- C. 8 Milis Non-Toxic PVC Jacket, Non UL/CSA

NOTE: Intruder's Cut Resistant Glove is made from a highly advanced material. Unlike regular cotton or synthetic blended material, its stainless steel core component does not have elasticity to regain its original shape. The cut resistant material conforms to the initial user's hand giving it an identity that offers maximum cut protection from hand to wrist.

The Intruder Cut Resistant Glove is offered in 6 sizes. Use the provided templates to determine the glove that best fits you. If your hand is within a 1/4" of the size template, it is best to go with the smaller of the two sizes. If you are unsure on your size or have additional questions, please contact our office for assistance at 800-553-5129.
