

4 Week Meal Guide

**WEEK 4**

# WEEK 4

Hi there, it is week 4 and you have done amazingly well from the small to the big changes you have made. Awesome!

Who thought a chocolate cauliflower shake could taste that good. Always think of adding a few vegetables into everything you make. Why? Vegetables provide all the minerals and vitamins needed by your body. They alkalise the body, supporting weight loss as well as overall good health. Added to that, they are full of fibre to support good gut health. So think vegetables and more vegetables.

You have had 4 weeks of various menus and ideas for all your meals, plus will have worked out which recipes you love, and which ones you're not that keen on. That's great, now you can take the recipes you love and build your own custom menu plan for the next month.

I would suggest to keep reevaluating your goals once a month. Think about your goal for that month and make it measurable. Plus give yourself relevant steps to follow to achieve the goal. Here is an idea of something you could use as a guide:

I want to lose 7 pounds in total. I aim to lose ½ pound each week and to make it measurable, I will weigh every 3rd morning. I plan to lose this weight in 4 months. I will make this relevant by increasing the vegetables on my plate by 50% and not eating biscuits and chocolates. It will be relevant to my goal as I will prep my food so I will not snack on sweets and crisps. I will check the progress in 1 month to reevaluate the goals.

Well done and keep going!

Angela
