Refining the deadlift. Certainly find filming helpful for analysis. Sometimes as a coach your eyes can be fixed on one area and you don't always notice something elsewhere. First video is the most recent. I'm trying to help Jenny get locked into position before lifting. This week the lift was smoother. I find with deadlifts that when you get all your ducks in a row the lift is almost effortless. That's efficiency. Jenny's been lifting for a while now.

One day, a newborn calf was born near Milo's home. The wrestler decided to lift the small animal up and carry it on his shoulders. The next day, he returned and did the same. Milo continued this strategy for the next four years, hoisting the calf onto his shoulders each day as it grew, until he was no longer lifting a calf, but a four-year-old bull. [.](#)
