

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
<b>African Violet</b>	<b>Streptocarpus</b>	Terrarium	Prone to leaf rot if too moist.
<b>Avocado Plant</b>	<b>Persea</b>	Ficus	
<b>Banana Plant</b>	<b>MUSA</b>	Calathea and Maranta	Add 20% Bark
<b>BEGONIA</b>			
Angel wing begonia	<b>Cane Begonias</b>	Calathea and Maranta	Appreciates high humidity.
Cissus Discolour	<b>Rex Begonia Vine</b>	Fern	Appreciates high humidity
Eyelash Begonia	<b>Begonia Bowerae</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Painted-leaf Begonia	<b>Begonia Rex</b>	Fern	Needs high humidity and plenty indirect light.
Palm Leaf Begonia	<b>Begonia Luxurians</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Polka dot Begonia	<b>Begonia Maculata' Wightii</b>	Calathea and Maranta	This would thrive faster in a terrarium w/ the terrarium mix
The Striped Begonia	<b>Begonia Listada</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
Bird of Paradise	Strelitzia	Calathea and Maranta	Add 20% Bark
-	Bromeliad	Anthurium	
Bonsai	-	Ficus	
Burro's Tail	Sedum morganianum	Cacti and Succulent	
Bush Lily	Clivia Miniata	Anthurium	
Cast Iron	Aspidistra	Anthurium	20% added Coco coir.
Chinese Evergreen	Aglaomema	Monstera and Philodendron	
Citrus plant	Citrus Calamondin	Ficus	
Coffee Plant	Coffee Arabica	Alocasia	
Corkscrew Grass	Juncus effusus 'Spiralis	Ficus	Appreciate lots of indirect bright light!
Crotons	Codiaeum variegatum	Syngonium	
-	Dischidia	Anthurium	This is a succulent epiphyte
Dragon Tree	Dracaena	Ficus	
Dumb Cane	Dieffenbachia	Ficus	
ELEPHANT EARS			
-	Caladiums	Alocasia	
-	Colocasia	Alocasia	
False Shamrock	Oxalis Triangularis	Alocasia	

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
Fire Flash	Chlorophytum orchidastrum	Monstera and Philodendron	
Fishbone Cactus	Epiphyllum Anguliger	Anthurium	This is a succulent epiphyte
Hawaiian Wedding Vine	Stephanotis Floribunda	Anthurium	
-	Hibiscus	Fern	Appreciate lots of indirect bright light!
Jade Plant	Crassula ovata	Cacti and Succulent	
JEWEL ORCHIDS			
-	Ludisia discolor	Alocasia	Water when substrate is dry.
-	Macodes Petola	Bark & Sphagnum - equal parts	This would thrive faster in a terrarium w/ the terrarium mix.
Lipstick Plant	Aeschynantus Rasta	Ficus	
Maggie	Homalomena Rubescens	Alocasia	
-	Medinilla Magnifica	Monstera and Philodendron	Regular low dose of fertiliser to support flowering
Mistletoe cacti	Rhipsalis	Anthurium	This is a epiphyte.
Nerve Plant / polka dot plant	Fittonia / Hypoestes	Calathea and Maranta	This would thrive faster in a terrarium w/ the terrarium mix.
Orchids	Phalaenopsis	Anthurium	

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
<b>PALMS</b>			
Areca Palm	<b>Dypsis Lutescens</b>	Ficus	Needs high humidity and lots of bright light.
Cascade Palm	<b>Chamaedorea Cataractarum</b>	Ficus	Needs high humidity and lots of bright light.
Chinese Fan Palm	<b>Livistona Chinensis</b>	Ficus	Needs high humidity and lots of bright light.
Majesty Palm	<b>Ravenea Rivularis</b>	Ficus	Needs high humidity and lots of bright light.
Kentia palm	<b>Howea Forsteriana</b>	Ficus	Needs high humidity and lots of bright light.
Parlor Palm	<b>Chamaedorea Elegans</b>	Ficus	Needs high humidity and lots of bright light.
Ponytail Palm	<b>Beaucarnea Recurvata</b>	Ficus	Needs high humidity and lots of bright light.
Sago Palm	<b>Cycas Revoluta</b>	Cacti and Succulent	Needs high humidity and lots of bright light.
<b>Peace Lily</b>	<b>Spathiphyllum</b>	Calathea and Maranta	When the leaves droop, they are ready for a drink!
<b>PEPEROMIA</b>			
Baby Rubberplant	<b>Peperomia Obtusifolia</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
Peperomia piccolo banda	<b>Peperomia Albovittata</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Hope Peperomia	<b>Peperomia Rotundifolia</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix
Ivy Leaf Peperomia	<b>Peperomia Albovittata</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix
Lilian Peperomia	<b>Peperomia caperata</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Luna Red Peperomia	<b>Peperomia Caperata</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Moonlight Peperomia	<b>Peperomia Caperata</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix
Napoli Night Peperomia	<b>Peperomia Caperata</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix.
Raindrop Peperomia	<b>Peperomia Polybotrya</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix.
Rocca Verde	<b>Angulata Peperomia</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix.

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
String of Turtles	<b>Prostrata Peperomia</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix.
Watermelon Peperomia	<b>Peperomia argyreia</b>	Ficus	This would thrive faster in a terrarium w/ the terrarium mix.
PILEA			
Silver Tree/Bronze	<b>Pilea Spruceana</b>	Syngonium	
Shiny Creeping Charlie	<b>Pilea Depressa</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix.
Glauca	<b>Pilea Glauca</b>	Syngonium	This would thrive faster in a terrarium w/ the terrarium mix.
Moon valley	<b>Pilea crassifolia</b>	Syngonium	
Chinse Money Plant	<b>Pilea Peperomiodes</b>	Ficus	
Pilea 'mojito/White Splash/Sugar'	<b>Pilea Peperomiodes</b>	Ficus	
<b>Pineapple Plant</b>	<b>Ananas comosus</b>	Anthurium	
<b>Poinsettia</b>	<b>Euphorbia pulcherrima</b>	Cacti and Succulent	Treat this like a cactus - very little water.
POTHOS			

COMMON NAME	SCIENTIFIC NAME	SOIL MIX	NOTES
-	<b>Epipremnum</b>	Monstera and Philodendron	
-	<b>Scindapsus</b>	Monstera and Philodendron	
<b>Purple Passion</b>	<b>Gynura aurantiaca</b>	Fern	This would thrive faster in a terrarium w/ the terrarium mix
<b>Mistletoe cacti</b>	<b>Rhipsalis</b>	Anthurium	This is a epiphyte.
<b>Seedlings</b>	<b>Herbs</b>	Fern	You can also use Vermiculite to start seeds!
<b>Snake Plant</b>	<b>Draceana (ex. Sanseveria)</b>	Cacti and Succulent	Would appreciate 10% added bark.
<b>Spider plant</b>	<b>Chlorophytum comosum</b>	Calathea and Maranta	
<b>Spiderwort</b>	<b>Tradescantia</b>	Calathea and Maranta (For Tropical Tradescantia)	Cacti and succulent (For xeric Tradescantia)
<b>Stephania</b>	<b>Erecta &amp; Glabra</b>	Cacti and Succulent	
<b>String of Hearts</b>	<b>Ceropegia Linearis ssp. woodii</b>	Cacti and Succulent	
<b>String of Pearls</b>	<b>Curio Rowleyanus</b>	Cacti and Succulent	
<b>Tender Herbs</b>	-	Fern	
-	<b>Trachyandra Tortilis</b>	Cacti and Succulent	
<b>Umbrella Plant</b>	<b>Schefflera arboricola</b>	Ficus	
<b>Wax plant</b>	<b>Hoya</b>	Anthurium	

<b>COMMON NAME</b>	<b>SCIENTIFIC NAME</b>	<b>SOIL MIX</b>	<b>NOTES</b>
Wood Sorrel	<i>Oxalis sp.</i>	Alocasia	
Yucca	<i>Yucca elephantipes</i>	Ficus	Would appreciate Add 10% Grit
Zebra basket vine	<i>Aeschynanthus Marmoratus</i>	Anthurium	Add 10% Coco Coir
Zebrina Plant	<i>Aphelandra Sqarrose</i>	Calathea and Maranta	
ZZ Plant	<i>Zamioculcas</i>	Cacti and Succulent
