OUR STORY: IGNITING A CRAFT MOVEMENT

Founded in 1996 by winemaker John Scharffenberger and fine food enthusiast Robert Steinberg, SCHARFFEN BERGER pioneered the farm-to-bar chocolate movement, employing a craft process that is still in place today. The founders perfected a unique blend that highlighted the true flavor of cacao instead of masking it with sugar and other additives. The result is an array of truly distinctive chocolates with balance and complexity normally reserved for exceptional wines.
