

MC400RL-SLIM

NEW!

Save Wall Space, Add Coin Capacity

Standard Change-Makers, Inc. introduces the **MC400RL-SLIM** currency change machine. This new product features a tall, narrow cabinet for owners/operators that have limited wall space but need a reliable, versatile change machine with additional capacity over our single dispenser offering.

The MC400RL-SLIM has two (2) Modular Series coin hoppers, that will hold up to 6,400 Quarters/5,000 Dollar Coins. You can order the "MC400-SLIM" with one (1) or two (2) Bill Acceptors. With a second bill acceptor, you have built-in back-up with our **Dual Redundancy Feature** - where both bill acceptors and both coin hoppers all communicate with each other.

With the optional EF+ Module, and an Ethernet connected network router, you can get remote notifications of daily audits, and alerts of most "out of service" conditions in the change machine, sent directly to your cell phone or email.

The large coin cup will insure that customers using \$20 bills can get easy access to all their change (80 quarters) at the end of the dispense.

Backed by Standard's **TWO YEAR WARRANTY**, and you have a machine that will help you increase revenue at your self-serve business.

SAME SIZE AS ROWE'S BC1400

MODEL	# OF HOPPERS	CAPACITY	BILL ACCEPTORS
MC400RL-SLIM	2	6,400 QTRS/\$1,600	1*

* **Optional Second Bill Acceptor Available!**

DIMENSIONS:

CABINET: 38.50" H x 12.00" W x 18.00" D

FACEPLATE: 43.00" H x 18" W

SHIP WEIGHT: 195 lbs.

NOTE: The MC400RL-SLIM machine will directly replace a Rowe BC1400 without modifying the rough opening or customizing the faceplate.
