

EAGLE CREEK

RAINBOW TROUT

- FRESHEST FISH
- FULLY-SUSTAINABLE
- TASTIEST TROUT
- UNPARALLED PURITY

Eagle Creek Fish Company, one of the oldest trout farms in Michigan, transcends the boundaries of a traditional farm. It is a thriving wildlife preserve, where icy cold pristine waters flow from deep underground artesian aquifers. These pure waters serve as the lifeblood of their farm, nurturing brilliantly colored Rainbow Trout from egg to maturity. Their ponds, streams, and raceways are a testament to the harmony between nature and sustainable aquaculture.

Within an hour of leaving the ice-cold waters, their trout are expertly processed, never frozen, and swiftly delivered within hours. This meticulous care guarantees an extraordinary farm-to-table experience, offering you the freshest and most flavorful trout imaginable. Loaded with naturally occurring Omega-3, Eagle Creek trout's proximity to our customers ensures an exceptionally fresh, healthy, and satisfying culinary adventure.
