- PRICED FOR VOLUME

Town Dock takes pride in their commitment to preserving the environment while delivering the finest quality seafood to your plate. Their fishing practices go above and beyond regulatory requirements, adhering to best practices that minimize their impact on the ecosystem.

Town Dock takes pride in leading the way with their industry-leading ethical supply chain policy. They actively enforce this policy through onsite inspections and independent, third-party ethical audits. "Doing the Right Thing" is one of their core values, and they believe that ensuring the well-being of workers at every stage of the supply chain is the right thing to do.

Experience the difference with Town Dock Calamari, where sustainability, community commitment, and ethical sourcing come together to deliver the finest calamari available. Join us in embracing a future where great taste meets responsible practices.
