

A photograph of a barn interior. Two teepees are hanging from the wooden beams. The one on the left is light purple, and the one on the right is yellow. The background is a wall of corrugated metal with light streaming through the slats. In the foreground, there are large bales of hay. The text is overlaid on the image.

**I AM TIPTOE TIIPI  
AND THIS IS MY BACKYARD DREAM**

However big or small your ideas  
I love to join in your games  
I close my eyes and let you in  
And give you enough space  
To do battle with blankets  
And vanquish boredom  
As you gaze up to infinity and beyond

## INDOOR SANCTUARY FOR ROAMING DREAMS

The word 'teepee' comes from the language of the Lakota, a nomadic Native American tribe from the prairies of North America. Teepees are cone-shaped tents, traditionally constructed with hides or canvas and designed to be quickly dismantled and set up.

Under the label of Bears & Candy Autentic introduces the Tiptoe Tipi. Just like the olden days, Autentic Teepees are designed with a frame of straight poles tied together at the top, along with a natural canvas cover. A unique, imaginative and whimsical interpretation of what can be extraordinary tent design in a child's size.

# TIPTOE TIPI

A WONDERFULLY SOFT TIPI IN FRESH CANDY COLOURS, WITH AMPLE SPACE TO PLAY AND IMAGINE.

In this small tipi of 1,6 meters high, everything has been done to make your little cowboys and indians snug and cozy. From a soft cushion to roll in, to real cottage windows with curtains. An untreated canvas, dyed in cheerful colours, was chosen for the tent fabric. The groundsheet is finished with a non-slip and dirt-resistant PVC bottom layer.

## BIG WOODEN BUTTONS

With the indoor teepees, even the smallest children's hands can easily close the windows and doors with the beautiful, large wooden buttons.

## LEATHER REINFORCEMENTS

They keep the poles in place, and provide a little extra cachet to your Tipi.
