

# THE FUTURE IS HERE

with the "NEXT GENERATION CEMENT"

## TheraCem™ Self-Adhesive Resin Cement

**TheraCem** is a dual-cured, calcium and fluoride-releasing, self-adhesive resin cement indicated for luting crowns, bridges, inlays, onlays and posts (prefabricated metal/non-metal/fiber posts).

### 1 DUAL-SYRINGE PACKAGE

1 Dual-Syringe (8g), 15 Mixing Tips and Intraoral Tips, Instructions  
Natural Shade ..... D-46311P

# Meet the newest addition to the "Thera" family ... the NEXT GENERATION of Cements!

Delivering a strong bond to zirconia and most substrates along with easy clean-up and high radiopacity, **TheraCem** offers clinicians an effortless, reliable and durable cementation of indirect restorations.

## Calcium & Fluoride Releasing

- Continuous ion release

## Alkaline pH

- Transitions from acidic to alkaline pH in minutes

## Easy Clean-Up

- Specifically formulated to allow for quick and easy removal of cement

## High Degree of Conversion

- Ensures a higher physical strength

## Highly Radiopaque

- Easy to identify on radiographs for quick and effective diagnosis

## Easy to Use

- Auto-mix, dual-syringe provides a consistent mix for immediate delivery

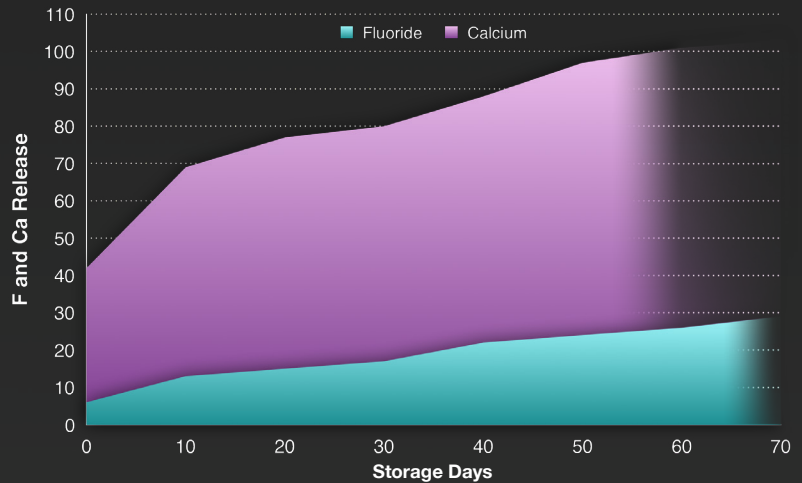

## Strong Bond to Zirconia

- Delivers a strong bond to zirconia and most substrates with no priming or etching required
