

LENZING™ FR INHERENT FR-COVERALLS

Lenzing™ FR fabrics is becoming more popular against present 40 years old technology which provides protection, but poor comfort, due to 100% synthetic make up. Lenzing™ FR inherent flame retardant fabrics are designed to offer maximum protection & superior wearing comfort. This is more suitable for extreme climate conditions.

Style : LENZING FR
Brand : PPE-FR®
Mfr. : PPE ONLINE

PPEFR®

- Features:**
- Inherent flame retardant coveralls.
 - Lenzing™ FR 150gsm thickness.
 - Excellent flash fire protection.
 - Inherently flame resistant.
 - FR properties cannot be removed by washing or wear.
 - Industrial launderable - very durable - excellent value.
 - High color fastness.
 - Blends can be reinforced with para aramid - polyamide - formaldehyde free.
 - Numerous blends and weights.

About Lenzing FR Fabrics: Lenzing™ FR is a sustainably produced inherently flame-resistant cellulosic fiber based on Lenzing's renowned modal fiber production process. Lenzing™ FR is commonly blended with other high-performance fibers to produce unique protective solutions for a variety of industrial applications. Lenzing™ FR fibers typically contribute both protective qualities & enhanced comfort to these fabric blends.

Certification: ISO EN 11612, ISO EN 11611, NFPA 2112, UL listed & Chinese GB certified.

CERTIFICATE OF COMPLIANCE

Certificate Number MH60167
Report Reference MH60167-20180328
Issue Date 2020-MARCH-20

Issued to: CHANGSHU BAOFENG SPECIAL FIBER CO LTD
112 Zhimei Road
Meilli Town
Changshu, Jiangsu 215500
China

This is to certify that representative samples of Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire - Component
Shell Fabrics: BF-LFR-150

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: NFPA 2112, Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire, 2018 Edition

Additional Information: See the UL Online Certifications Directory at www.ul.com/database for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

This is to certify that representative samples of the product as specified on this certificate were tested according to the current UL requirements.

CERTIFICATE OF COMPLIANCE

Certificate Number MH61760
Report Reference MH61760-202011XX
Issue Date 2020-NOVEMBER-XX

This is to certify that representative samples of the product as specified on this certificate were tested according to the current UL requirements.

Certified products:

Type	Model/Style	Closure System
Protective garments:		
Coverall	DS-CABCD	Zipper Front Closure with Snap Fasteners
Jacket	DS-JABCD	Zipper Front Closure with Snap Fasteners
Shirt	DS-SABCD	Snap Fastener Front Closure
Pants	DS-PABCD	Zipper Front Closure with Single Snap Fastener
Winter Jacket	DS-WJABCD	Zipper Front Closure with Snap Fasteners

Note: Model Numbers contain a serial code "ABCD" which is to be replaced with numeric digits that reflect garment production year, FR finish for outer shell fabrics, reflective trims and number of pockets used in construction.

As an example, Coverall Style: DS-C1116
Production Year, Code A is the first "1" (for 2021);
FR Finish for Outer Shell Fabrics, Code B is the second "1" (for Inherent FR);
Reflective Trims, Code C is the third "1" (for with reflective trims);
Number of Pockets, Code D is "6" (for 6-pocket configuration).
