FINCH + FLOURISH PAPER GOODS

2024

hi there!

We're a design and print studio based in sunny Silver Lake Los Angeles, focused on products that help people connect, support, and share with one another. Founded on a deep love of snail mail in 2019, we specialize in quirky and heartfelt sustainably printed greeting cards and paper goods. All of our cards begin with a one of a kind illustration before being digitally printed on post-consumer recycled paper, or hand printed on cotton paper via our 1913 antique press.

Cheers!

Jess

GREETING CARDS

Finch + Flourish greeting cards begin as a one-of-a-kind watercolor or digital illustration before being digitally printed on recycled content FSC certified 100 lb felt cover, and paired with a recycled kraft envelope. All paper and envelopes we source are produced in the US using renewable energy.

Cards are size A2, and blank inside.

YES, LETTERPRESS!

We're also excited to welcome a 1913 Golding Pearl printing press to the family! Our new line of letterpress cards are printed on a soft 118# cotton paper, and like our felt paper, is manufactured in the US using renewable energy.
