

# WORX

## RACING COMPONENTS

### WR04026

Step 1. Remove top deck, air box top and intake ribbon

Step 2. Increase the existing hole in the back of airbox to 2.5" Fig. 1

Step 3. Using a 2.5" hole saw, bore a new hole in the front of the airbox. Fig. 2

Step 4. Install hose coupling onto the throttle body. Fig. 3

Step 5. Reinstall airbox top. Install tube and clamp through holes in box. Fig. 4

Step 6. Position filter so it clears the gas inlet tube by 1/8" Fig. 5

Step 7. Tighten clamps on coupler. Install new vent line from the head fitting to the filter. Fig. 5

Step 8. Reinstall deck and check the filter position through the inspection cover
