Internet Donations

This website is enabled for online donations using a secure donation server. However, despite the security on the website, you should be aware that there are inherent risks in transferring information across the Internet.

We record on our fundraising database the Internet donor's name, address, email, telephone, amount donated, and if the funds are for a specified gift. Our fundraising database is protected by secure user IDs and passwords, to help protect it from misuse, unauthorised access, modification, or disclosure.

When making a donation on the Internet, you are given the option (in wording of equal size to all other information requested) to untick a box to opt out of receiving future email communications. If this is not changed, you may receive fundraising material from SOSDF, and your email address will be added to our email database. You may remove your name from this database at any time. Our emails include an unsubscribe link to facilitate this.

Privacy, Security and Viruses

SOSDF take our obligations to protect your personal information seriously, please see our [Privacy Policy](#).

However, please note that the internet is an insecure public network which means there are risks that information sent to or from our website services may be intercepted, corrupted, or modified by third parties. In addition, it is possible that files and transmissions through our website services may contain computer viruses, disabling codes, worms or other devices or defects.

You bear the risks and responsibility for any loss or damage caused, directly or indirectly, by these risks. SOSDF does not accept any liability for any interference with or damage to your computer system, device, software, or data occurring in connection with your use of our website and website services.
