

PRODUCT IMAGE	PRODUCT NAME	DESCRIPTION	APPLICATION
	<p>Actrol Powder</p> <p>Is specially formulated to help reduce excess sebaceous oils and fluids to encourage the skin to heal more rapidly. It forms an antibacterial protective seal over the skin.</p>	<p>This magic powder is excellent for acne-prone skin as it works to absorb excess oil. It also has soothing and healing properties that help to clear blemishes and can be used on the most sensitive skin types.</p>	<p>How to Apply:</p> <p>Lightly dust the entire face and neck or affected area with the powder using a cotton ball, or dry fan brush.</p> <p>Available Size:</p> <p>Available in 30g.</p> <p>Therapist's Tips:</p> <p>Use as a translucent setting powder for makeup. To reduce redness and inflammation, a light dusting, using your DMK Fan Brush, can also be applied to the area under the Enzyme Masque as well as at the end of a treatment over sunscreen.</p> <p>Key Ingredients:</p> <ul style="list-style-type: none"> • Orange root • Thyme • Vitamin C
	<p>Acu Crème</p> <p>For congested, acne prone skin, Acu Crème is formulated to purify and decongest the skin while providing moisture and nourishment.</p>	<p>Do you feel both oily AND dry at the same time? Chances are the dryness you're feeling is your cells not turning over as they should. Acu Crème works to gently regulate cell turnover (which smooths the skin) and purify and decongest the skin, while the formulation's natural oils keep it nourished and moisturised. Designed with a mix of vitamins, essential fatty acids, antioxidants and nutrients, Acu Crème works to return your skin to balanced harmony.</p>	<p>How to Apply:</p> <p>Cleanse the skin and use your DMK serums, then apply a pea-sized amount of Acu Crème, spray with Herb & Mineral Mist and work into the skin.</p> <p>Available Size:</p> <p>Available in 15ml and 50ml.</p> <p>Therapist's Tips:</p> <p>Have an important event? Dab a small amount of Acu Crème directly onto a pimple to dry it up rather than squeezing it.</p> <p>Key Ingredients:</p> <ul style="list-style-type: none"> • Avocado oil • Cod liver oil • Red clove

Acu Masque

Ideal for blemish prone and congested skin. Acu Masque is a versatile at-home masque that works for oily, dull or inflamed red skin.

A cult hero! Acu Masque is for all skin conditions including red inflamed skin, acne and congestion, as well as sensitive skin that needs a deep clean. Acu Masque helps to combat toxins while assisting to clear and soothe the skin. The masque uses bentonite which absorbs toxins, pulling out impurities and congestion without harsh drying or stripping of the skin. Designed with nature's 'beauty mineral' sulphur, this versatile masque helps to maintain a clear and youthful complexion and manage acne.

How to Apply:

Cleanse and apply masque. After 20 minutes remove with warm water and apply DMK drops, serums, oil and crèmes. Alternatively, for a deep exfoliation, apply after Micro Peel and follow with your DMK drops, serums, oils and crèmes.

Available Size:

Available in 60ml.

Therapist's Tips:

Acu Masque's soothing properties may help itchy, flaky or scabbing skin conditions. Apply the masque over the affected areas, leaving for seven minutes before rinsing off. Can also be used as a soothing cleanser on very reactive skins.

Key Ingredients:

- Sulphur
- Kaolin
- Eucalyptus oil

Acu-Moist w/SPF15

A light hydrating moisture-occluding lotion ideally suited for cystic inflamed acne and oily congested skin.

A light hydrating lotion, Acu-Moist is rich in antioxidants, vitamins and essential fatty acids to rebalance oily congested skin, soothe inflammation and mattify throughout the day. This lotion is suitable for people with cystic inflamed acne, oily congested skin, or looking for a non-oily moisturiser. As a bonus it contains SPF 15 so your skin will feel lightly hydrated whilst being protected from UV damage.

How to Apply:

Cleanse the skin and use your DMK drops, serums and Acu-Klear (if required), then apply a pea size amount of Acu-Moist, spray with Herb & Mineral Mist and work into the skin.

Available Size:

Available in 15ml and 50ml.

Key Ingredients:

- Safflower
- Allantoin
- Zinc oxide

Acu-Klear

To be used for acne conditions on both the face and body. Acu-Klear helps to eliminate pimples and control breakouts.

A must have in the beauty cabinet, this lotion is for anyone experiencing pesky breakouts. Acu-Klear is a fast-acting lotion that penetrates deep within the pores and works to clear the build-up of oil, dead cells and bacteria inside the pores that cause pimples, inflammation and other blemishes.

How to Apply:

Apply only to cleansed skin on the infected area before Acu-Moist and Herb & Mineral Mist or Acu-Mist.

Available Size:

Available in 30ml.

Key Ingredients:

- Salicylic acid
- Azelamide
- Niacinamide

Acu-Klenz

Part of the DMK acne solutions system, Acu-Klenz controls breakouts while the skin is being cleaned out.

A deep cleansing anti-bacterial gel, Acu-Klenz works to control breakouts while the skin is being cleaned out and decongested. It penetrates deep within the oil-filled pores to regulate the skin's cell turn over and rebalance oil levels whilst reducing irritation, inflammation and redness. Great to use on the body if you suffer from chest and back acne.

How to Apply:

Massage a pea size amount of Acu-Klenz mixed with water into the skin, before rinsing off thoroughly with water. Avoid direct contact with the eyes.

Available Size:

Available in 180ml.

Therapist's Tips:

This is a great product for people who cannot attend treatments on a regular basis as they start their skin revision program for acne prone skin.

Key Ingredients:

- Salicylic acid
- Aloe vera
- Panthenol

Acu-Mist

Formulated with plant extracts specifically chosen for acne prone skin, it works to protect and fight against acne causing bacteria whilst hydrating the skin.

Designed to control acne-causing bacteria, whilst working to restore the skins acid mantle, keeping skin hydrated with vitamins and minerals. Acu-Mist contains antiseptic and antibacterial ingredients to clear congestion and breakouts. Keep in your gym bag to prevent breakouts on the face and body after a sweaty workout.

How to Apply:

Start with Herb & Mineral Mist and then progress to Acu-Mist. A cotton ball which has been sprayed with Acu-Mist can be blotted on problem areas over the top of the Acu-Moist and Herb & Mineral Mist.

Available Size:

Available in 120ml.

Therapist's Tips:

Want to grab a coffee with a friend after the gym and don't have time to shower? Spray Acu-Mist on your face and chest after sweating to help prevent the bacteria from blocking pores. Acu-Mist can also be used as a hand sanitiser.

Key Ingredients:

- Salicylic acid
- Aloe vera
- Alginic acid

Acu-Therm

Designed to heat up and soften hardened sebum plugs through a pseudo heat, Acu-Therm helps to break down and eliminate pimples fast.

Acu-Therm is designed to be used as a spot treatment on those hard blind pimples. It creates a heat to the applied area and works to breakdown hardened oil, reducing the redness and the pain associated. As it breaks down plugs it allows the bacteria and fluid trapped within the pores to be flushed out, eliminating acne fast. Keep in your beauty cabinet for emergencies!

How to Apply:

Apply directly onto pimples, pustules and blackheads, massage into area well, leave for one-five minutes before wiping away the excess. This formulation is used at night only.

Available Size:

Available in 5ml.

Key Ingredients:

- Dong quai
- Clove
- Cassia
- Capsicum

Aminodine Spritz

A refreshing spray formulated to help revise deep cross-linked wrinkles and fragile capillary vessels in mature and sun damaged skin.

For sun damaged and mature skin, Aminodine Spritz helps to inhibit deep cross-linked wrinkles and a yellow appearance. Formulated using antioxidants it also works to revise an excess of weakened and fragile capillary vessels and increase free water levels to refresh and rehydrate the skin. To help in the maintenance of the skin's elasticity Aminodine Spritz contains cucumber oil which assists to soothe the skin and reduce puffiness. Aminodine Spritz is recommended for people who are smokers or suffer from diabetes, it is however not designed for younger clients who wish to prevent these particular signs of ageing.

How to Apply:

Spray nightly on the neck, back, hands and face (avoiding the eyes) after all other DMK serums have been applied. Start with applying only two-three times per week and gradually increase as needed.

Available Size:

Available in 120ml

Therapist's Tips:

The night before a special occasion use Aminodine Spritz with Aqu Masque to help tighten the skin for that 'wow' factor.

Key Ingredients:

- Witch hazel
- Cucumber oil

Beta Gel

DMK's signature superhero formula suitable for all skin types, but especially recommended for acne, poor immunity, premature ageing, scarring and red inflamed reactive skin conditions.

A signature DMK formula, Beta Gel is a powerful immune boosting serum designed to address all skin conditions. The formulation contains beta-glucan to enhance the skin's ability to reduce redness and inflammation, repair damaged cells and stimulate growth factors. Perfect for acne, congestion, rosacea, ageing, sun-damage and red-reactive skin. The product is everyone's skin prescription.

How to Apply:

Apply to the skin and directly onto sutures or wounds. Follow with other DMK serums, oils and nourishing crèmes.

Available Size:

Available in 30ml.

Therapist's Tips:

Within twenty minutes of being sunburnt, apply Beta Gel to help increase the healing process deep within the skin's tissue.

Key Ingredients:

- Witch hazel
- Beta-glucan
- Palmitoyl oligopeptide (pal-GHK)

Betagen

Specifically formulated for reactive, irritated or prematurely ageing skin.

Known as DMK's 'emergency crème', Betagen is a unique formulation designed to revise skin demonstrating sensitivity, environmental stress, sun damage, premature ageing and signs of trauma.

Containing the powerful beta-glucan, it works to trigger the regeneration of damaged cells, collagen and help enhance the immune response to fight free radicals. Betagen is also formulated with rich nourishing ingredients that work to soothe and lock in moisture.

How to Apply:

After cleansing and using DMK serums, oils and spray, apply a pea sized amount of Betagen, spray with Herb & Mineral Mist and work into the skin. DMK Soleil products should be applied over crème.

Available Size:

Available in 30ml.

Key Ingredients:

- Beta-glucan
- Pumpkin seed oil
- Safflower oil

Biogen C

Specifically designed for skin suffering from wrinkles and fine lines, fragile capillaries or reactive skin conditions

DMK's 'beauty in a flash' crème, Biogen C is great for people who want to look refreshed and youthful. Formulated using collagen boosting ingredients that help to improve the skin's elasticity, it works to tone and tighten the skin. To help plump fine lines and smooth out wrinkles, Biogen C binds water to skin cells and increases overall hydration. Biogen C can also be used to strengthen weakened capillaries and calm skin under environmental stress.

How to Apply:

After cleansing and using DMK serums and oils, apply a pea sized amount of Biogen C, spray with Herb & Mineral Mist and work into the skin.

Available Size:

Available in 15ml and 50ml.

Therapist's Tips:

Use in the battle against hay-fever and allergies to dust and pollen, Biogen C helps to desensitise the skin against these irritants, like a 'tranquilliser in a jar'.

Key Ingredients:

- Krameria triandra root extract
- Vitamin E
- Hexapeptide

Body Sculpting

Body sculpting helps to reduce the appearance of cellulite by smoothing and firming loose body skin.

The dreaded orange peel, dimpled appearance affects 90% of women, no matter their size or fitness level, and is caused by the accumulation or enlargement of fat cells in between the connective tissue. Body Sculpting's breakthrough technology works to assist in circulation, oxygenation and to

How to Apply:

After a warm shower, apply a layer of crème onto the relevant area until only partially absorbed. Wrap the area with plastic wrap and leave for 40 minutes. Then remove and massage the remainder of the Body Sculpting crème into the skin.

		<p>help improve the lymphatic drainage system while strengthening the connective tissue. A must have in summer!</p>	<p>Available Size: Available in 120ml.</p> <p>Key Ingredients:</p> <ul style="list-style-type: none"> • Cassia
	<p>Calerase</p> <p>Hand and foot crème designed for calloused, dry and cracked skin.</p>	<p>Calerase is designed to smooth and soften calloused, dry and cracked skin, and works excellently in conjunction with DMK's MediPedi® treatment. Calerase is great as a hand and cuticle crème, can be used to smooth dry knees or elbows and help reduce folliculitis on upper arms and ingrown hairs. Lactic acid has strong exfoliating properties to help remove the build-up of dead skin cells leaving your skin smooth and bump free.</p>	<p>How to Apply:</p> <p>Work the crème into the problem area, applying liberal amounts on severely cracked and calloused skin. Direct Delivery Vitamin C

Stimulating the cellular renewal process, Direct Delivery Vitamin C reduces the number of damaged cells, aiding the revision of ageing, scarring, skin tone and texture with a stabilised Vitamin C formulation.

One of DMK's most powerful skin rebuilding tools, Direct Delivery Vitamin C is a sophisticated serum used to stimulate collagen production, suppress pigmentation formation, protect against environmental damage as well as regenerate healthy skin. Direct Delivery Vitamin C is ideal for wrinkles, fine lines, sagging skin, skin tone and texture, acne, darker skin tones, pigmentation, and scarring. It can also be used on pre- and post-operative treatments to encourage healing.

How to Apply:

Apply two pumps onto clean, dry skin and work in, applying more to problem areas. It can go right up under the eye area.

Available Size:

Available in 30ml.

Therapist's Tips:

Ladies, your face and neck are not the only area that starts to show your age, apply two pumps to your décolleté for the full Direct Delivery Vitamin C age revision treatment.

Key Ingredients:

- Vitamin C
- Ascorbyl glucoside
- Magnesium ascorbyl phosphate
- Panthenol vitamin B5

Elevate™

Revises signs of ageing and gravity around the neck and décolleté. It helps to lift and tighten the tissues, reduce redness and strengthen capillaries.

Formulated as part of the DMK Limited range, Elevate™ utilises advanced ingredients to help lift and tighten the tissues around the neck and décolleté. This unique crème aids in the fight against gravity in a remarkably short amount of time. It's revitalising bio-energy actions and warming thermogenic effect work to stimulate muscle contraction, increase circulation and collagen production to help tighten, lift, and support the skin.

How to Apply:

After cleansing and applying FirMatrix™, work in a pea size amount of Elevate™ with Wetter Than Water™ on the neck and décolleté area.

Available Size:

Available in 10ml and 50ml.

Key Ingredients:

- Ornithine
- HPR (new generation of retinoids)
- Apricot kernel oil
- Peptides (pseudoalteromonas ferment extract)
- Tripeptide (TT2)
- Methyl glucoside phosphate

Eye Web™

Like an invisible web around the eyes, this powerful eye crème can help to instantly tighten sagging skin, eliminate the appearance of puffiness under the eyes and revise dark circles, wrinkles and fine lines through strengthening the skin.

DMK's Eye Web™, a superior eye crème has a complex formulation that works as an intensive support serum for the delicate tissue around the eyes. With phyto-suspension technology, pigmentation erasers and deep active nutrients all suspended in a single application, this powerful serum targets signs of ageing around the eyes. Like an invisible web it acts to tighten and firm the sagging tissues to help diminish fine lines and wrinkles as well as to strengthen and protect the delicate skin. Additionally, it helps to brighten dark circles, significantly reduce puffiness and nourish the skin with vitamins and antioxidants vital for healthy cell life.

How to Apply:

Lightly work in a pump of Eye Web™ under and around each eye after cleansing and applying FirMatrix™. Do not massage other crèmes over the top.

Available Size:

Available in 3ml and 15ml.

Therapist's Tips:

Dab a small amount over makeup to give the skin an extra lift.

Key Ingredients:

- Tetrahexyldecyl ascorbate
- Swertia chirata extract (SWT-7)
- Leontopodium alpinum callus culture extract
- Zanthoxylum bungeanum extract

FirMatrix™

Like a filler without the injections, FirMatrix™ utilises powerful botanicals to help rebuild the epidermal matrix. Generating greater density within the skin to bring firmness to loose or sagging skin.

This premium skin serum penetrates deep within the skin to help give a more youthful, bouncy look. Formulated with powerful botanicals that utilise bio-homeostasis technology, FirMatrix™ works to rebuild the epidermal matrix and help restore skin density. Nutritiously rich FirMatrix™ encourages the skin to act as it did during more youthful years. This is your 'skin filler' without the injection!

How to Apply:

Work two-three pumps of FirMatrix™ into the skin after cleansing.

Available Size:

Available in 5ml and 30ml.

Key Ingredients:

- Ethyl ascorbic acid
- Trifluoroacetyl-tripeptide-2
- Tamarindus indica seed gum
- Laminaria digitata extract

Mediterranean Pearls™

This mild cleansing gel infused with vitamin B enriched microspheres, gently buffs the skin loosening dead skin, dirt and make up. The mild foaming action then lifts the debris and rinses it away leaving the skin hydrated, clean and refreshed without feeling dry or irritated.

A string of islands off the coast of Italy are said to have been created from the pearl necklace of Venus, the goddess of beauty. Inspired by the enchantment of these islands and their legends, Mediterranean Pearls™ use the natural surfactants found in olives to create this luxurious cleanser. A mild gel, it is infused with vitamin B enriched microspheres that have reparative properties and dissolve as they gently buff the skin to loosen dead skin cells, dirt and makeup. The mild foaming action lifts the debris and rinses them away leaving the skin feeling refreshed, velvety smooth and calm without the dryness other cleansers can cause.

How to Apply:

Massage a pea sized amount of Mediterranean Pearls™ with damp fingers into the skin, before rinsing off thoroughly with water. Avoid direct contact with the eyes.

Available Size:

Available in 30ml and 150ml.

Key Ingredients:

- Xylitylglucoside
- Anhydroxylitol
- Xylitol
- Olive fruit oil
- Calendula officinalis flower extract
- Panthenyl triacetate

TransGenesis™

Fights the signs of ageing with specific marine sourced enzymes that work to encourage cell turnover and renewal without irritation, giving the skin a smooth porcelain glow. It helps restore maximum moisture levels as well as improving firmness and elasticity.

Travelling back in time may not be possible, but DMK has learnt how to help transcend its effects on the skin. TransGenesis™ crème utilises advanced ingredient technologies to target cell renewal, firmness, elasticity and moisture retention. Formulated with specific marine sourced enzymes, it encourages cell turnover and renewal without causing irritation to the skin. Its gentle exfoliating action works to reveal healthy, younger looking skin while the abundance of peptides, amino acids, essential fatty acids and other nutrients support cell life. Furthermore, TransGenesis™ helps to encourage collagen production and assists the skin's immune function to encourage the growth of smooth, plump and youthful skin.

How to Apply:

After cleansing and applying FirMatrix™ and Eye Web™ work in a pea size amount of TransGenesis™ with Wetter Than Water™ on the facial area.

Available Size:

Available in 10ml and 50ml.

Key Ingredients:

- Beta-glucan
- Red caviar extract
- Hydrolysed glycosaminoglycans
- Peptides

Wetter Than Water™

Known as the fountain of youth, Wetter Than Water™'s natural hydrating and nourishing benefits provide elements the skin needs to function and regenerate. This spritz helps transform the skin into a supple, plump, firm complexion.

Wetter Than Water™ helps to improve the skin's natural hydrating properties, filling it up full of water and supplying it with all the essential nutrients it needs to thrive. Designed with a unique blend of carrier and wetting agents, Wetter Than Water™ drives deep into the epidermis almost instantly. Once there, it releases its moisturising ingredients and nutrients, which are known for their volumising, soothing, antioxidant, and immune-boosting properties. Hydrolysed tremella fuciformis sporocarp extract is a key ingredient in Wetter Than Water™ and can hold the water equivalent to nearly 500 times its weight. Tremella fuciformis has water-retention capabilities supposedly superior to hyaluronic acid. This hydrating formula will aid healthy skin function and help it look plumper, fuller and younger.

How to Apply:

Spray before and with TransGenesis™ and Elevate™, working the nourishing crèmes into the skin after cleansing and applying FirMatrix™ and Eye Web™.

Available Size:

Available in 15ml and 50ml.

Therapist's Tips:

Take 15ml bottle to use during a flight to help keep the skin hydrated.

Key Ingredients:

- Allantoin
- Krameria triandra root extract
- Pseudoalteromonas ferment extract
- Hydrolysed tremella fuciformis sporocarp extract

EFA Ultra

Formulated with a powerful blend of plant based essential fatty acids, mega 3,6,9 & 7 (EFAs), seaweed extract, vitamins, minerals and amino acids, EFA Ultra encourages healthy skin, hair and nails. It is above and beyond the average supplement

The seaweed extract in the formula has a 50% concentration of fucoidans.

A powerful blend of the EFAs 3, 6, 7 and 9, this supplement has more than 190 nutrients and bioactive substances all entirely sourced from plant-based ingredients. Coconut oil, mekabu seaweed extract, sea buckthorn and evening primrose work to soothe and nourish the body, increase water levels in the skin and improve its structural integrity and barrier function. EFA Ultra works well for those who suffer from acne, inflamed or reactive skin, pigmentation and hormonal imbalance, as well as fine lines, wrinkles and saggy skin. For any skin undergoing a revision program, EFA's are a priority.

How to Apply:

Take two capsules twice per day.

Available Size:

Available in 120 capsules.

Therapist's Tips:

For more than just a glowing complexion, EFA Ultra encourages faster hair and nail growth.

Key Ingredients:

- Coconut oil
- Mekabu seaweed extract
- Sea buckthorn
- Evening primrose oil

Enbioment™ Cleanser

A beautiful microbiome friendly cleanser designed with gentle surfactants to cleanse the skin without creating an imbalance in the skin's natural microbiome. Contains lactobacillus ferment and botanical extracts to enhance the skin's natural defences.

Enbioment™ Cleanser leaves the skin feeling soft and hydrated and the natural microflora balanced. Designed with gentle cleansing agents derived from botanical sources and a natural preservative system, this cleanser will make the skin feel fresh, clean and vibrant.

How to Apply:

Massage a pea-size amount of Enbioment™ Cleanser mixed with water into a lather on the skin, before rinsing off thoroughly with water. Avoid direct contact with the eyes.

Available Size:

Available in 180ml.

Therapist's Tips:

The perfect cleanser for reactive skin and acne.

Suitable for most skin conditions to regain balance.

Key Ingredients:

- Olive oil
- Lactobacillus
- Snow mushroom extract
- Cornflower extract
- Rhodiola rosea root extract
- All-natural preservative system
- Natural fragrance

Enbioment™ Mist

Is specially formulated to help calm and soothe while also feeding and promoting the growth of good microflora (bacterial balance).

A pre-biotic formulation, designed to prepare the skin for re-establishing the skin's microflora, which is an essential part of a balanced skin.

Casting a fine coating over the skin, Enbioment™ Mist is the second step in the Enbioment™ range, creating the ideal environment for a healthy, balanced microbiome on the skin. Strengthens the skin's immune system, reduces redness and irritation, which makes this system perfect for anyone suffering from reactive, red and inflamed skin conditions.

How to Apply:

After cleansing with Enbioment™ Cleanser spritz the affected area with a thin layer of Enbioment™ Mist (you do not want to wet the skin as you would with Herb & Mineral Mist).

Available Size:

Available in 50ml.

Key Ingredients:

- Hops
- Peumus boldus leaf extract
- Inulin
- Fennel extract
- Lemon balm
- All-natural preservative system
- Natural fragrance

Enbioment™ Serum

The third step in the Enbioment™ range, is the milky serum to assist in promoting biodiversity within the skin's microbiome. The inclusion of bacillus coagulans, which produces lactic acid, helps boost the immune system and discourages the bad bacteria. Perfect for anyone suffering reactive, red and inflamed skin conditions.

How to Apply:

After cleansing with Enbioment™ Cleanser and spritzing with a thin layer of Enbioment™ Mist, apply a few pumps of Enbioment™ Serum and work into the affected area. Allow the product to soak into the skin for a minute before applying DMK serums, oils and crèmes.

Available Size:

Available in 10ml and 50ml.

Key Ingredients:

- Bacillus coagulans
- Lecithin
- Yeast extract
- All-natural preservative system

Epitoxyl

Is designed to pull toxins and impurities out of the skin for those who suffer from acne, congested skin and also for skin exposed to high amounts of environmental toxins.

Epitoxyl acts like a magnet and works to draw impurities out of the skin, turning them into a vaporous gas in three minutes. Ideal for those who suffer from acne and congested skin and for skin exposed to high levels of environmental toxins. It is excellent for city-based people, smokers, drinkers and people on heavy medication.

How to Apply:

Apply to the skin with a cotton ball and wait three minutes before rinsing thoroughly with cool water. Use only one-two times a week.

Available Size:

Available in 60ml.

Therapist's Tips:

This is great for detoxing the skin of chefs, couriers and mechanics and those in jobs where they are exposed to high levels of environmental toxins.

Key Ingredients:

- Kelp
- Red algae
- Sea salt

Exoderma Peel

Gentle microscopic exfoliating gel, eliminates impurities and leaves skin smooth and fresh.

Formulated as a gentle exfoliator and mask activator, Exoderma Peel is suitable for most skin types, designed to leave the skin feeling refreshed and smooth. Exoderma Peel can be used regularly as a quick refreshing at home treatment to smooth the skin and can be used around the delicate eye area. Combine it with Foamy Lift to create an At-Home Enzyme Masque similar to DMK's signature treatment. A weekly must have.

How to Apply:

Apply to freshly cleansed skin and leave for ten minutes before rinsing off. Alternatively, mix one-two teaspoons of Foamy Lift with one-two teaspoons of Exoderma Peel and apply with upward strokes. Leave on for 30-40 minutes whilst keeping the head elevated. Rinse off.

Available Size:

Available in 60ml.

Key Ingredients:

- Chloroxylonol
- Kelp

Eye Tone

Specially formulated eye crème designed to revise wrinkles and fine lines, dark circles and puffy bags around the eye area, whilst hydrating and strengthening the skin.

Fight back against dark circles, puffy eyes and early signs of ageing with the help of Eye Tone. Its unique formulation encourages the skin to function as it did when it was younger; the botanical ingredients help to plump the skin and revise wrinkles and fine lines. Also works as an amazing neck treatment.

How to Apply:

Use over Beta Gel, Direct Delivery Vitamin C, Seba-E or Herbal Pigment Oil. Apply one pump of Eye Tone around the eye, top lip and to the neck, spraying with Herb & Mineral Mist before working into the skin.

Available Size:

Available in 15ml.

Therapist's Tips:

Use as a superficial top up in between anti-wrinkle injections.

Key Ingredients:

- Ascorbyl glucoside
- Hyaluronic acid
- Centella asiatica leaf extract
- Beta-glucan
- Acetyl hexapeptide-8
- Sea buckthorn oil

FibroMax C

Our intensive vitamin C therapy utilises vitamin C in its most bioactive and intensive form for the revision of ageing, pigmentation, fragile capillaries, scarring and problematic skin.

DMK's strongest most bioactive form of vitamin C, FibroMax C's unique microencapsulation technology works to revise ageing, pigmentation, fragile capillaries, dullness and problematic skin. This exclusive formula encapsulates liquid droplets of pure ethyl ascorbic acid, the purest form of stable vitamin C in silica particles to form a powder, that when rubbed into the skin transforms into a liquid. Fantastic for targeting areas of pigmentation, wrinkles and fine lines.

How to Apply:

After cleansing, tilt the head back and tip a small amount onto the affected area. Using the fingertips, massage the powder and melt it into the skin. The friction and warmth from rubbing it into the skin loosens the links between the particles, breaking the shell and releasing the liquid inside.

Available Size:

Available in 7.5g.

Therapist's Tips:

After an At-Home Enzyme Masque, when the skin is working at its absolute best, apply FibroMax C for the nutrients to be readily absorbed.

Key Ingredients:

- 20% pure ethyl ascorbic acid
- Silica silylate

Fine Line

Is an extremely nourishing eye and neck crème, that helps to rejuvenate the skin and revise lines, wrinkles and dryness around the eyes, lips and neck.

Designed with a lush blend of rich herbal lipids, vitamins and minerals to deeply nourish, revitalise and visibly reverse the signs of ageing. A powerpack of all-natural ingredients that work together to strengthen and repair the fragile skin around the eyes, lines and wrinkles on the top lip and neck.

How to Apply:

After working in DMK serums and oils, apply a very small amount around the eyes, on the neck, and areas affected by deep lines. Spray with Herb & Mineral Mist. Apply a thicker layer at night for maximum results.

Available Size:

Available in 30ml.

Key Ingredients:

- Moringa seed oil
- Liquorice root extract
- Apricot oil
- Acer rubrum bark extract
- Cordyceps militaris extract
- No parabens or synthetic fragrances
- All-natural preservation system

Foamy Lift

Foamy Lift supports optimal skin function between DMK treatments and works to smooth, purify, brighten, and tone the skin.

Don't lose the amazing complexion achieved by DMK treatments, maintain and support optimal skin function while at home with Foamy Lift Masque. This gentle masque helps to tighten the skin as it exfoliates and removes impurities and debris from within the skin. It works as an excellent brightener for darker complexions and assists to increase the skin's dermal hydration and is suitable for all skin tones and conditions. Mix with Exoderma Peel, to create DMK's ultimate conditioning At-Home Enzyme Masque.

How to Apply:

Mix one-two teaspoons of Foamy Lift with one-two teaspoons of Exoderma Peel and apply with upward strokes. Leave on for 30-40 minutes whilst keeping the head elevated to alleviate pressure. Remove with a DMK cleanser and finish with your normal home care routine.

Available Size:

Available in 30g.

Key Ingredients:

- Citric acid
- Aspartic acid
- Amino acids
- Cinnamon cassia oil

Herb & Mineral Mist

DMK's signature, instant-delivery skin multivitamin, mineral and amino acid supplement spray, encourages active ingredients in DMK oils and crèmes to penetrate deep into the skin.

Formulated using DMK's signature blend of herbs, vitamins, minerals, amino acids and trace elements, Herb & Mineral Mist aids in the transdermal delivery of DMK oils and crèmes. More than just a mist, the cold water-soaked herbs and minerals increase hydration, free water levels to give all the nutrients your skin needs. Herb & Mineral Mist is suitable for all skin types.

How to Apply:

Spray four-five times over DMK oils and crèmes before massaging them into the skin.

Available Size:

Available in 60ml and 120ml.

Therapist's Tips:

Herb & Mineral Mist can be sprayed over make-up to brighten and wake-up tired looking skin or take it onto a plane to help keep the skin's hydration levels boosted.

Key Ingredients:

- Sarsaparilla
- Alfalfa mullein extract
- Kelp
- Hops

Herbal Pigment Oil

Imitates the skin's natural sebaceous flow. It softens, brightens and desquamates dry discoloured skin, while strengthening and replacing vital lipids.

Herbal Pigment Oil is a hydrating oil that helps to brighten, smooth and strengthen the skin, whilst protecting against dehydration. When combined with Herb & Mineral Mist it imitates the skin's natural barrier to repair reactive and fragile skin. It is ideal for darker complexions, skin prone to hyper-pigmentation and skin exhibiting pigmentation or environmental damage. This versatile oil also smoothes and exfoliates making it perfect for dark circles around the eyes, dark patches on the knees and elbows, raised scars, dry lips and cuticles.

How to Apply:

Apply two-four drops (depending on how oily the skin is) straight after DMK serums. Spray with Herb & Mineral Mist and lightly work into the skin, up under the eyes and into the neck area or problem areas. For keloid scars apply two-three times a day and massage in well, without the Herb & Mineral Mist.

Available Size:

Available in 30ml.

Therapist's Tips:

Use around the eyes with Direct Delivery Vitamin C or Eye Tone to help with dark circles. Can also be used as a lip oil for dry chapped lips and as a cuticle oil.

Key Ingredients:

- Vitamin C
- Cod liver oil
- Wild plum seed pol
- Rose oil
- Marula seed oil
- All-natural preservative and fragrance complex

Hydra Louffa

Non-granular body gel designed to cleanse the skin and exfoliate dead skin cells.

Cleanse the skin and exfoliate away dead cells on your body without causing the micro-traumas harsh abrasive scrubs do. This gel works to dissolve and desquamate dead skin cells without irritating reactive skin. The soothing properties of chamomile and exfoliating actions of birch bark extract make it ideal for dry, itchy skin conditions and work to prevent ingrown hairs and folliculitis.

How to Apply:

For daily use apply directly to the skin as a shower gel, body cleanser and exfoliant or use as a bubble bath.

Available Size:

Available in 240ml.

Therapist's Tips:

Hydra Louffa is great for extending a spray tan and helping it to fade evenly. It is also great to assist in reducing dandruff when used as a shampoo.

Key Ingredients:

Melanotech Drops

Works for passive or severe hyper-pigmentation and can help prevent pigmentation caused by inflammatory conditions such as acne and rosacea.

A powerful concentrate, Melanotech Drops are formulated to help minimise hormonal or severe hyper-pigmentation without bleaching the skin. Ingredients such as liquorice and hildrys siliquosa extract assist to inhibit pigmentation being produced in the skin, while the powerful formulation helps to brighten and create a beautiful even complexion.

How to Apply:

After cleansing, apply a few drops to the affected area before applying DMK serums, oils and crèmes. Can be used at night under Super Bright to brighten the skin and inhibit the formation of pigment, or as a spot treatment to brighten specific areas of pigment.

Available Size:

Available in 30ml.

Key Ingredients:

- Kojic acid
- Liquorice root
- Hilidrys siliquosa extract

Micro Peel

A non-abrasive exfoliant that works to lift and clear away debris and dead cell material. Micro Peel helps to rebalance, refresh and smooth the skin for a glowing complexion.

A fresh glowing appearance is only a Micro Peel away! This gentle, non-irritating exfoliant formulation works to remove dead cell material and debris quickly and easily. Recommended for most skin types, Micro Peel helps to revise dull, coarse or wrinkled skin and will refresh and improve texture. Transform your skin from dull to beautifully glowing!

How to Apply:

Apply a thin layer onto cleansed skin, leave for five-ten minutes before removing with warm towels. Can follow with Acu Masque or Hydrating Masque (optional) before finishing with the appropriate DMK serums, oils, mists and nourishing crèmes.

Available Size:

Available in 180ml.

Key Ingredients:

- Citric acid
- Glycolic acid
- Lactic acid

Milk Cleanser

Is made with specific calming herbs that make it the ideal cleanser for fragile, lipid-dry or reactive skin.

Without stripping the skin, Milk Cleanser assists to loosen the debris deep within the pores while its herbal formulation helps to soothe reactive skin. Milk Cleanser works to clean out the pores of dead cell material and aids the skin's natural ability to flush out toxins. This milky cleanser is ideal for fragile, lipid-dry or reactive skin such as those prone to eczema or dermatitis. The botanical extracts help to nourish and soothe the skin.

How to Apply:

Mix a pea sized amount with water and massage into the skin with damp fingertips, avoiding contact with the eyes, before rinsing off thoroughly.

Available Size:

Available in 60ml and 180ml.

Therapist's Tips:

Use Milk Cleanser as a makeup remover that works to leave the skin feeling calm, soft and supple.

Key Ingredients:

- White oak bark
- Yucca
- Birch bark
- Soybean

Nite Firming

For mature, ageing skin, wrinkles, and loss of elasticity Nite Firming is a specialised crème that helps to revise biological and environmental signs of ageing, encouraging a firm and healthy complexion.

Nite Firming crème penetrates deep inside the skin to work on a cellular level to revitalise, strengthen and regenerate younger, firmer skin. The formulation encourages the production of new collagen to support skin elasticity and revise wrinkles and saggy skin.

How to Apply:

Apply a pea sized amount of Nite Firming crème onto cleansed skin, over DMK serums, oils and sprays. Can be used in the morning or evening with Herb & Mineral Mist or as part of the 'age buster' treatment at night with Aminodine Spritz to aid in the revision of glycation.

Available Size:

Available in 50ml.

Therapist's Tips:

The night before a special occasion use with Aminodine Spritz for the ultimate at home tightening treatment.

Key Ingredients:

- Phospholipids
- Palmitoyl oligopeptide
- Palmitoyl tetrapeptide-7
- Vitamin C
- Grape seed extract

Pore Reduction Plus

Minimises the appearance of open pores, purifying, good for acne and congested skin. Calming, good for reactive inflamed skin.

Pore Reduction Plus drops are designed to visibly reduce enlarged pores naturally without stripping and irritating the skin. Pore Reduction Plus purifies and calms the skin, reducing redness and is antibacterial. Recommended for red reactive skin, acne, congestion, rosacea, and fragile capillaries as well as large or stretched pores.

How to Apply:

Apply directly to cleansed skin morning and night before applying DMK serums, oils and crèmes.

Available Size:

Available in 30ml.

Key Ingredients:

- Kelp
- Rose hip oil
- Hops
- Alfalfa

Pro Amino

An amino rich nourishing crème, designed for youthful skin to help balance and maintain a plump, healthy, glowing complexion.

Assists in preventing signs of ageing and fine lines, Pro Amino's rich nutritional formulation replicates the skin's own natural moisturising factors to balance the skin. Lush with eight essential amino acids, proteins, vitamin C and hydroscopic lipids, Pro Amino crème assists to maintain the skin's elasticity and retain moisture for a bouncy, bright, healthy and youthful complexion.

How to Apply:

After cleansing and applying DMK serums and oils, work in a pea sized amount of Pro Amino crème with Herb & Mineral Mist.

Available Size:

Available in 15ml and 50ml.

Key Ingredients:

- Magnesium ascorbyl phosphate
- Palmitoyl oligopeptide
- Palmitoyl tetrapeptide-7
- Safflower oil
- Vitamin A

Red Vein Crème

Works to flush out capillaries and strengthen the capillary walls to visibly reduce redness and vascular matting

Red Vein Crème works to revise the underlying cause of capillary damage by stimulating blood flow and flushing out the capillaries, whilst aiding in strengthening their wall and cell membranes. This encourages increased oxygenation within the skin to revise swollen capillaries, reduce redness as well as acne, vascular scarring and bruising.

How to Apply:

After cleansing at night apply Red Vein Crème with Herb & Mineral Mist to specific areas and work in. Use every third night for two weeks on its own, then every second night with Herb & Mineral Mist for a further two weeks. For the following six weeks apply every night with Herb & Mineral Mist until capillaries and redness have reduced.

			<p>Important note: Clients must have had six professional Enzyme treatments before introducing Red Vein Crème. The exception is when there is bruising on the body – it can be applied immediately without Enzyme Therapy.</p> <p>Available Size:</p> <p>Available in 30ml.</p> <p>Key Ingredients:</p> <ul style="list-style-type: none"> • Glycosaminoglycans • Salicylic acid • Oleic acid • Niacin B3 • Vit K 1
	<p>Revise A</p> <p>This light exfoliating product aims to maintain cellular renewal and encourage a healthy, youthful complexion. Introduce after a minimum of four skin revision treatments.</p>	<p>Revise A's light exfoliating properties aim to maintain cellular renewal and encourage a healthy, youthful complexion. A powerful vitamin A formulation, it works to promote and regulate the growth of normal and healthy cells. Perfect for aging, sun damaged or congested skin.</p> <p>*Revise A crème can be introduced after a minimum of four in salon skin revision treatments as a maintenance product to continue to improve the appearance of the skin.</p>	<p>How to Apply:</p> <p>Apply directly after cleansing, either nightly or on alternative nights depending on the skin condition. During the day DMK Soleil Defence SPF15 or 50+ must be used to protect the skin.</p> <p>Available Size:</p> <p>Available in 30ml.</p> <p>Key Ingredients:</p> <ul style="list-style-type: none"> • Grape seed • Retinyl palmitate • Vitamin A • Salicylic and lactic acids

Revitosin

Works to rebalance and regulate the natural rhythm of cellular proliferation, fight free radicals, and support the skin in-between professional treatments. Revitosin is a powerful and versatile night formulation.

Revitosin works to regulate, rebuild and strengthen the skin, bringing the skin back into balance. A powerful blend of vitamin A's help to regulate cell proliferation, the flow of oil and encourage RNA which prevents cell degeneration. A very versatile formulation, Revitosin is suitable for acne, pigmentation, ageing, scarring and stretch marks.

How to Apply:

Apply directly after cleansing, either nightly or on alternative nights depending on the skin condition. During the day DMK Soleil Protect SPF15 or SPF50+ must be used to protect the skin.

Available Size:

Available in 60ml.

Key Ingredients:

- Hydroxypinacolone retinoate (HPR)
- Retinyl palmitate
- Vitamin A

Seba-E

To help reduce dryness and plump the skin, Seba-E's formulation is designed to imitate the skin's identical lipids and natural oils to promote barrier repair. This assists to re-establish hydration and revitalise the skin.

Formulated to emulate the acid mantle and restore the skin's natural barrier function. This helps to prevent skin dehydration which can cause roughness, flakiness, red reactive skin, fine lines, wrinkles and a loss of bounce and elasticity in the skin. Made from a fine blend of herbal oils and vitamin E, Seba-E is designed to penetrate deep within the skin to nourish dehydrated, dry and inflamed skin conditions.

How to Apply:

After cleansing and using DMK serums, apply two-four drops of Seba-E oil with Herb & Mineral Mist and gently work into the skin, up under the eyes and along the neck area.

Available Size:

Available in 30ml.

Therapist's Tips:

Apply to warm, damp cotton rounds as an eye makeup remover.

Key Ingredients:

- Soybean oil
- Oat kernel oil
- Magnolia flower oil
- Rose oil

Solar Damage Gel

Helps create a firmer plumper more replenished appearance as it works to support barrier protection and soothe inflamed skin.

Bring back the skin's vitality with the help of Solar Damage Gel. Its protective barrier properties work to soothe and rehydrate the skin. Its specific formulation is designed to prevent water loss, soothe post-treatment irritation, reduce redness and encourage healing.

How to Apply:

Apply a thin layer after cleansing and using DMK serums, oils, crèmes and sprays. Gently massage in to help absorption. Can be used morning and night.

Available Size:

Available in 60ml and 180ml.

Therapist's Tips:

Apply a generous layer before getting on a plane and continue to top up during the flight to keep the skin hydrated.

Key Ingredients:

- Aloe vera
- Allantoin
- Hyaluronic acid
- Glycosaminoglycans
- Chamomile

DMK Soleil Defence SPF50+

An Australian made broad spectrum, water resistant, non-greasy sunscreen, DMK Soleil Defence SPF50+ doesn't just aid in the protection from sunburn without clogging the skin, it works to help prevent premature ageing and pigmentation.

Whether it's by the beach, on a sporting field, at the snow, or just for going out and about, DMK Soleil Defence SPF50+ helps protect the skin from both UVA and UVB damage.

With two-hour water-resistant protection DMK Soleil Defence SPF50+ can be used on all skin conditions as it does not clog the pores or leave a greasy residue.

How to Apply:

Apply generously to exposed skin 20 minutes before going out into the sun. Reapply every two hours and always after swimming, excessive sweating or towelling down.

Available Size:

Available in 50ml and 200ml.

Key Ingredients:

- Bemotrizinol
- Octyl methoxycinnamate
- Octyl triazone

DMK Soleil Protect SPF15

Is an everyday light, non-greasy sun protection that won't cause breakouts and helps protect the skin against the risk of sunburn.

For day to day running around, DMK Soleil Protect SPF15 helps to protect the skin from UV damage. It can be worn under makeup without compromising its effectiveness and will not feel heavy or greasy. DMK Soleil Protect SPF15 assists to prevent pigmentation and signs of premature ageing and can be used on all skin conditions.

How to Apply:

Apply generously to exposed skin 20 minutes before going out into the sun. Reapply as needed after swimming, exercise or extended sun exposure.

Available Size:

Available in 60ml and 120ml.

Key Ingredients:

- Allantoin
- Titanium dioxide
- Pantheon

Super Bright

An advanced technology night crème designed to aid pigmentation and brighten the skin.

An advanced technology night crème, Super Bright is designed with a superior blend of botanical ingredients that work to assist the revision of pigmentation and to brighten the skin. This moisturising rich formulation is a natural alternative to bleaching products without the possible harmful toxic side effects. Super Bright works to rejuvenate and revise skin that experiences hyper-pigmentation, is prone to pigmentation or is dark, dull or sun damaged.

How to Apply:

Apply directly to cleansed skin, or over Melanotech Drops, without spray. Use nightly on all hyper-pigmented areas, applying a second layer on heavily pigmented areas. After desired brightening is achieved, reduce use to twice a week to maintain results.

Available Size:

Available in 60ml.

Key Ingredients:

- Kojic acid
- Liquorice root
- Ursolic acid
- Phytic acid
- White mulberry
