WHY CARS HAVE BEEN CLEANED THE SAME WAY FOR THE LAST 50 YEARS REMAINS PUZZLING TO ME, AFTER ALL YOUR CAR'S PAINT IS LIKE SKIN. IT HAS PORES LIKE SKIN. IT BREATHES LIKE SKIN. IT NEEDS TO BE FED LIKE SKIN. THE AMMO APPROACH ISN'T TO TEAR DOWN, IT IS TO BUILD UP. AMMO IS ABOUT LAYERS. LAYERS OF PROTECTION. AMMO NYC IS THE FIRST COMPLETELY FUSSY CAR CARE COMPANY. LEARN TO PAMPER YOUR CAR AS YOU WOULD ANY THOROUGHbred THAT'S RIDDEN TO THE EDGE OF COMBUSTION. – LARRY KOSILLA

AMMO FOAM is a safe blend of foaming agents that release dirt from the surface of your paint. Made for early drives close by the sea in a fine drizzle. You park in a farmyard, walking single file through the mud to the kitchen for an early breakfast. Later changing to dry clothes in the saddle room, and driving west along an old coastal road. Your car, a pale ghost beneath the grey sky, seagulls escorting you. You roar toward the mountains. The car and countryside spectacular. **AMMO FOAM** is about "the drive". It's made for people who care about the way their car looks, as much as its performance. For a feast of information and helpful videos go to ammonyc.com.

DIRECTIONS 1. Add 3 squeezes of FOAM to a bucket or foam gun. 2. Fill bucket 3/4 with water. 3. Pre-rinse paint. 4. Soak MF towel in soapy bucket and wipe top to bottom in straight lines. No circles. 5. Final rinse before FOAM dries on paint. **DO NOT FREEZE.**
