**AMMO SYPHON** is a low pH spot remover effective against stains from juice, coffee, rust, tea, blood, organic residues, and contains grease removing agents that lift most oily soils. Made for those days with no destination. Seat bolsters hugging closely as you twist and turn through corners. City lights in the distance. Head for an escape. No worries now. Just the rhythm of the road. **AMMO SYPHON** is about "the drive." It's made for people who care about the way their car looks, as much as its performance.
