WHY CARS HAVE BEEN CLEANED THE SAME WAY FOR THE LAST 50 YEARS REMAINS PUZZLING TO ME, AFTER ALL YOUR CAR'S PAINT IS LIKE SKIN. IT HAS PORES LIKE SKIN. IT BREATHES LIKE SKIN. IT NEEDS TO BE FED LIKE SKIN. THE AMMO APPROACH ISN'T TO TEAR DOWN, IT IS TO BUILD UP. AMMO IS ABOUT LAYERS. LAYERS OF PROTECTION. AMMO NYC IS THE FIRST COMPLETELY FUSSY CAR CARE COMPANY. LEARN TO PAMPER YOUR CAR AS YOU WOULD ANY THOROUGHbred THAT'S RIDDEN TO THE EDGE OF COMBUSTION. – LARRY KOSILLA

AMMO DYGEST is a mixture of enzymes and bacteria designed to eliminate organic matter and smells caused by pet waste. Cleans fecal matter, vomit, and urine. **DYGEST'S** bacterial action will digest the organic waste attached to the carpet fibers, removing and eliminating the source of the foul odor. Sunny day. A drive with your best friend. Head out the window, into the wind. Fearless. Park by the beach for a game of fetch. Barks of happiness as waves crash. **AMMO DYGEST** is about "the drive." It's made for people who care about the way their car looks, as much as its performance. For a feast of information and helpful videos go to ammonyc.com.

DIRECTIONS 1. Test on an inconspicuous area. 2. Remove any heavy matter in a throw away towel. 3. Apply directly to stain and allow to digest for 60 seconds. 4. Blot with a clean, dry towel, working from outside toward the center. 5. Repeat application and keep moist for 30 minutes before blotting dry again. 6. Repeat if necessary. **TIP:** Bacteria in **DYGEST** work best in warmer temperatures and can't be combined with strong bases or acids, as these types of products will kill the bacteria. Can be used in a shampoo or extractor machine.
