for Boost Tips & Tricks — *J. A. White*

Washing your car in winter is different than washing in summer. **AMMO BOOST** is a tri-blend formula added to your favorite car wash soap to increase its cleaning power. Designed to neutralize (low pH) road salt, combat hard water stains by rendering harmful minerals inert, and leave behind anti-rust corrosion inhibitors to deter future oxidation. The garage door opens. Chilled air greets you. It's time. Twist the key. Ease her out. Push deeper as gauges climb. Tap the gas through sliding corners. Tires break free. Squeal wakes the nearby garage queens. A smile. **AMMO BOOST** is about "the drive." It's made for people who care about the way their car looks, as much as its performance. For a feast of information and helpful videos, go to ammonyc.com.

DIRECTIONS 1. Add 1 or 2 squeezes of BOOST to your existing car soap (FOAM) or wheel soap (BRUTE) in a bucket. 2. Fill up 3/4 with water. 3. Wash paint and wheels in your normal routine. **PRO TIP:** Use BOOST undiluted if your car is parked near the ocean regularly or driven on roads that receive de-icing chemicals. **DO NOT FREEZE.**

⚠ WARNING: THIS PRODUCT CAN EXPOSE YOU TO CHEMICALS INCLUDING FORMALDEHYDE, WHICH IS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER, AND METHANOL, WHICH IS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM. FOR MORE INFORMATION GO TO www.P65Warnings.ca.gov.
