KEEP IT CLEAN®  
16 FL OZ

FLUX  
METAL  
POLISH  
DRIVE+  
PROTECT®

AMMO FLUX is designed to rejuvenate and restore metal on cars, boats, and motorcycles, while creating an anti-corrosion barrier to deter future oxidation. FLUX is silicon free so it won't leave behind sticky residue, and can be applied by hand or used with a SHEER or WAFLE pad and polisher. Rolling lazily through dunes. The sound of pebbles clinking off undercarriage. Windshield is all sky, then all sand. Pitching back and forth until you reach a deserted road. She takes your hand. Downshift, head for the horizon. No destination, just the sky and her smile. AMMO FLUX is about "the drive". It's made for people who care about the way their car looks, as much as its performance. For a feast of information and helpful videos go to [ammonyc.com](http://ammonyc.com).

**DIRECTIONS** 1. Wash and dry metal 2. Apply a liberal amount of FLUX to a microfiber towel or applicable polishing pad. 3. Rub vigorously and rotate towel as it becomes full of residue. **NOTE:** If you are using a polisher and pad, blow out or wipe off excess metal residue before each new pass to "work clean", which will produce better results.

## **⚠ DANGER: MAY BE HARMFUL OR FATAL IF SWALLOWED.**
