CLEAN / PROTECT / CORRECT

| | | | | | | | | | |
|--|--|--|--|---|--|---|---|--|---|
| (Always have your Wheel, Wash, and Rinse buckets prepared before you get started.) | 1. Engine off, cool hand touch 2. Avoid over soaking. Use minimum water 3. Avoid direct spray on alternator, battery, ignition, fuses 4. If concerned, use Frothe as alternative on sensitive parts | 1. Must do 1 wheel at a time 2. Wheels must be cool hand touch 3. Never use cleaners on carbon ceramic brakes 4. If concerned, use Frothe as alternative on sensitive parts | 1. Only scrub rubber if dirt, mud, or sticky brown substance is present. Otherwise light wash with brush and dry. Titan and a stiff brush is great on old greasy tires. | 1. Paint cool to touch 2. Work out of direct sunlight 3. Never let products air dry on paint 4. Work from top down. Leave nose, trunk, and lower rockers for last wipe | 1. Never let rubber dry in direct sunlight, it can discolor. Do not apply any dressings to mats or pedals. | 1. Use minimal effective product to avoid soaking cushion under cloth 2. Use minimum downward pressure with brush. 3. If grease stain, use Titan, then flush with Lather. | 1. Avoid direct spray on gauge cluster, radio, buttons 2. No dressing on pedal & steering wheel. 3. If grease stain, use Titan, then flush with Lather. | 1. If stain persists, use interior scrub pad gently 2. Do not let product dry before wiping with MF towel 3. If grease stain, use Titan, then flush with Lather. | 1. Start with pass-side front, work counter clockwise around car. Always use 3 clean towels. 2. Use IPA to degrease inside glass 3. Never let cleaners mist/drip on dashboard |
