FOR

## PEEL AWAY® 1 PAINT REMOVER

**Peel Away® 1 Paint Remover** is a heavy-duty paint removal product formulated to remove up to 30 layers of paints and coatings in as little as a single application. It removes oil, alkyd, and lead-based paints and most other older coatings from virtually all types of interior and exterior surfaces. Best of all, it penetrates to the bottom layer and performs even when the top layers are latex, acrylic, or epoxy, as long as the bottom layer is an oil, alkyd or lead-based coating. **Peel Away® 1** is NOT engineered to work if the only coatings are latex, acrylic, or epoxy.

**Peel Away® 1** is a complete paint removal system with everything you need to get started under the lid. Every container includes **Peel Away® 1 Paint Remover**, **Dumond® Laminated Paper**, **Citri-Lize® Neutralizer & Mill Glaze Remover**, and a pH test kit. 1 Gallon containers also include a plastic scraper.

## DUMOND® PAINT REMOVER ACCESSORIES

HIGH QUALITY PAINT REMOVERS REQUIRE HIGH QUALITY ACCESSORIES TO HELP GET THE JOB DONE RIGHT! DUMOND® OFFERS A KEY LINE OF SUPPORT PRODUCTS THAT INCREASE THE SPEED OF REMOVAL, EXTEND THE LIFE OF THE PRODUCTS DURING USE, PROTECT ALL KINDS OF SURFACES INSIDE AND OUT, AND MAKE CLEAN-UP A SNAP!

### DUMOND® LAMINATED PAPER

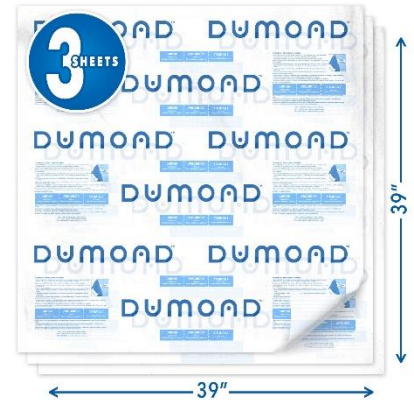

**Dumond® Laminated Paper** assists in the removal of architectural, industrial, and high-performance paints and coatings in as little as 30 minutes. It is specially engineered to keep **Dumond®** paint removal products in a wet state, reducing evaporation and allowing them to work more quickly and efficiently. It speeds up the paint removal process as it captures dust, debris, & paint flakes. **Dumond® Laminated Paper** even helps contain the release of dangerous lead dust from becoming airborne.

**Dumond® Laminated Paper** is effective inside and out, on almost all paint types. Recommended for use with all **Dumond®** brand paint removers including **Smart Strip® Advanced & Pro**, **Smart Strip® Marine & Auto**, **Confined Space® Paint Strip Gel**, and **Peel Away® 1**.

Available in pre-cut sheets (39" x 39") or rolls (13" x 300 ft).

## CITRI-LIZE® NEUTRALIZER & MILL GLAZE REMOVER

Citri-Lize® Neutralizer & Mill Glaze Remover will lower the pH level on wood, brick, non-polished stone, etc. that are highly alkaline to acceptable painting levels and is ideal for removing mill glaze prior to painting and staining. Mill glaze is the shiny film formed when the metal mill saw blades get hot while cutting lumber. It's present in most pressure treated pine & cedar like those on wooden decks, fencing, etc.

Citri-Lize® will brighten surfaces after paint removal. pH neutralization is especially important if the paint-stripped surface is repainted in the future. Suitable for interior and exterior applications. Note: **Peel Away® 1** products require neutralization after use and before repainting is possible.

### AVAILABLE IN

4 oz Part #: 2031

FORMULATED FOR

## DUMOND® pH TEST KIT

Dumond® pH Test Kits are a necessary step in the paint removal and restoration process. After using **Peel Away®** paint removal products, the surface pH will raise and become more alkaline. To combat this, use **Citri-Lize® Neutralizer** to lower the pH. **Dumond® pH Test Kit** are then used to determine when the pH is back to normal level for repainting and recoating. This will ensure a successful adhesion of future coatings. **Dumond® pH Test Kits** are already included under the lid of **Peel Away®** products and inside the **Dumond® Paint Removal Test Kit**.

## SAFE 'N EASY® REUSABLE OUTDOOR/INDOOR DROP CLOTH

**Safe 'n Easy Drop Cloths** are a must have for any interior/exterior painting, cleaning, pressure washing, or paint/varnish removal project. They trap dangerous paint and construction debris while allowing air and water to easily pass through. Highly effective at protecting your garden plants, bushes, flowers, and landscaping or your furniture, equipment, barbecue, toys, patio furniture, and more!

**Safe 'n Easy Drop Cloths** are engineered to be lightweight, with an extremely absorbent filtration membrane that creates a barrier shield. It remains strong even when wet and is washable and durable enough for reuse. They are lighter than traditional canvas drop cloths, making them easier to wash and convenient to store when the project is done. The ideal choice for professionals, contractors, or the DIY Homeowner.

# LEAD STOP® PROFESSIONAL LEAD ENCAPSULANT

LEAD POISONING FROM LEAD PAINT IS A SERIOUS DANGER TO CHILDREN, WHO ARE LIKELY TO PUT THE BROKEN CHIPS INTO THEIR MOUTHS. LEAD POISONING LEADS TO DEVELOPMENTAL DISABILITIES, HEARING LOSS, BRAIN & NERVE DAMAGE, AND OTHER SERIOUS ILLNESSES.

LEAD ENCAPSULATION IS A SOLUTION, ESPECIALLY WHEN LEAD PAINT REMOVAL IS TOO COSTLY.

## LEAD STOP® PROFESSIONAL LEAD ENCAPSULANT

Lead Stop® Professional Lead Encapsulant is designed to form an elastomeric barrier to seal and block dangerous lead-based paints and dust from entering the air. It helps maintain long-term protection from lead paint hazards, shielding workers, families, and especially children from the serious dangers of lead exposure.

Lead Stop® contains a safety agent designed to taste terrible, prompting young children to spit it out if ingested. Always read and understand the federal, state, and local regulations regarding the use of lead encapsulating coatings before use.

This product is **NOT** approved for **outdoor** use in Massachusetts.
