\*1 The brightness of the LED elements decreases by about 70% after about 40,000 hours of use.

\*2 The color and brightness of each individual LED element's light varies even when used in a light source with the same product code.

\*3 Varies depending on operating conditions and environments.

\*4 Applies when the battery performance drops below 50%.

\*5 Indicates protection from dust and high-pressure water jets from any direction.
