

AI USB Class Camera

FEATURE SPOTLIGHT

- **Perfect for online teaching**

Suitable for classroom, experience UHD 4K video, which can control almost any application environment and greatly improve online teaching experience.

- **AI Technology**

The CLASSCAM™ offers Auto-Tracking Camera which can automatically follow each teacher when recording videos and remained zoom into the whiteboard spaces where they are teaching. Once installed, your teachers will be able to launch their eLearning software (Zoom, Teams, Meet, etc.) and let our advanced AI technology do the rest. Give your classrooms a virtual PTZ (Pan, Tilt, Zoom) experience on a budget.

- **Multi-Device Connectivity**

Simply connect PC or Mac to conduct life-like meetings within your own familiar computing environment.

- **USB Plug-and-Play Connectivity**

With no special software, training, or maintenance required, connecting to a video teaching has never been easier.

- **Remote Control**

Easily operate camera pan/tilt/zoom and audio functions (mute) during video teaching.

NEXVOO CLASSCAM™

The CLASSCAM is a high-definition auto-tracking and framing video class camera that provides an easy plug-and-play connection to your laptop, PC and computer. The camera is compatible with all Web conferencing software including Zoom, Microsoft Teams, Google Meet, and more. With its built-in beamforming noise-reducing microphone, you can clearly pick up the voice of the teacher or speaker. The CLASSCAM is equipped with a 4K telephoto camera, giving your virtual learners to see the teacher and a clear whiteboard writing of the classroom, so they will not miss any action.
