

BulkPak Recycling

TerraCycle Regulated Waste's innovative solution combining the convenience of mail-back service with the capacity of bulk recycling.

+

=

BulkPak is a premium recycling solution, allowing your organization to conveniently recycle pallet load quantities of various universal and hard-to-recycle wastes.

Benefits:

Reduce Hassle: Eliminate packaging guesswork and uncertainty as to when the waste will be removed from your facility for recycling.

Rapid Turnaround: Reduce wait time from what can normally take weeks or even months with standard Universal Waste recycling services down to just a day or two!

Lower Price: BulkPak provides the convenience of mail-back recycling, but at a reduced cost.

Budgeting: You know what you're getting with BulkPak. Your purchase includes the pallet, containers, return shipping and recycling. No surcharges, no random fees, no surprises.

BulkPak Varieties:
