

GLORY BUFFER

DESIGNED AND ASSEMBLED IN USA
BELLINGHAM, WA

THANK YOU!

We'd like to thank you for choosing to play Throne Room Pedals - we are very grateful for your purchase! You've now joined our family of musicians worldwide that enjoy premium, USA-made products.

From our humble beginnings on the dining room table in a small apartment, we've grown to see our products sold through some of the world's top music distributors and toured with on nearly every continent.

Our products appeal to all types of musicians - from beginning players to world-renowned bands to churches and ministries across the globe. They offer a quality and durability that has seen them endure sustained use in 24/7 operating environments and carried in flight cases around the world.

It's because of you that we can continue our quest to build such great gear. With our expertise in lean manufacturing and fine attention to detail, we're on a continued quest for improving even our best products.

From the bottom of our hearts, thanks for playing Throne Room Pedals - and rock on!!

IN THE BOX

The following items have been included in the box with your product. If anything is missing, please contact us at your earliest convenience!

(1) Glory Buffer Guitar Pedal (A)

(1) Throne Room Pedals indoor/outdoor vinyl sticker (black/white) (B)

(1) Welcome card (C)

(A)

(B)

(C)

POWER REQUIREMENTS

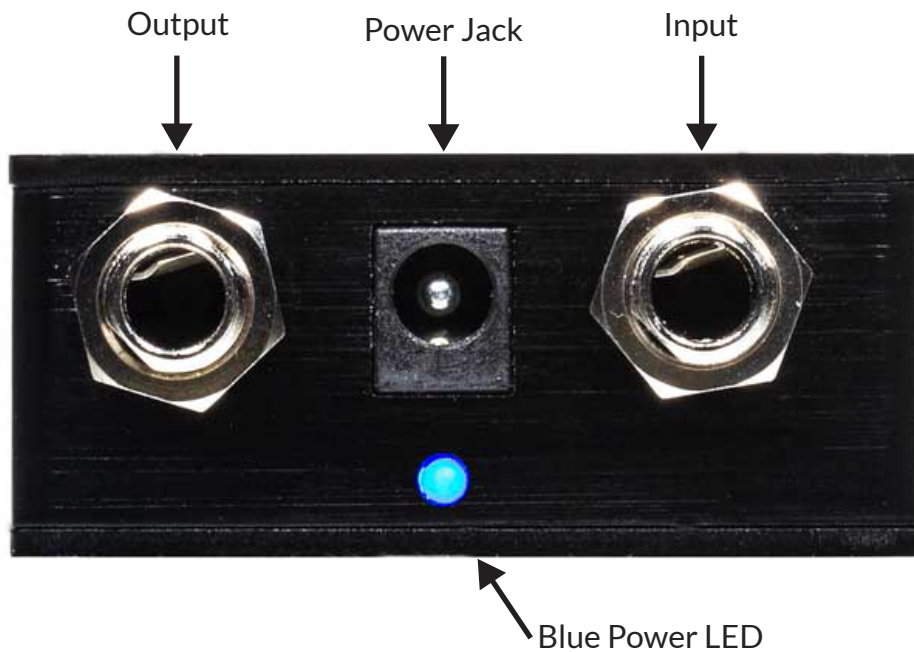

Please power this pedal with a power supply meeting the following specifications. Failure to use a proper power supply may cause fatal damage to the pedal. Damage sustained due to an unapproved power supply is not covered under our warranty.

This pedal does not have a bypass state and requires power to function. If power is removed, no signal will pass through.

POWER CONNECTOR	5.5mm X 2.1mm center pin
POLARITY	Center pin negative
VOLTAGE	9-18V DC
CURRENT DRAW	Approx. 10mA @ 9V
RECOMMENDED POWER SUPPLY	Throne Room Pedals 9V 2000mA or Other Isolated Power Supply

OPERATION

The Glory Buffer should be placed at the beginning or end of a pedalboard. It is recommended to try both locations to see which provides the best results. It should be placed after any fuzz pedals in the signal. Large boards with many true bypass pedals may benefit from a buffer at the beginning and end of the board.

Input - Neutrik 1/4" connector.

Output - Neutrik 1/4" connector.

Power Jack - See power requirements (previous page).

Blue Power LED - LED is always on and may be brighter when powered with voltages higher than 9V.

WARRANTY

All products manufactured by Throne Room Pedals are warranted from defects in parts and workmanship through a TWO YEAR non-transferable warranty from the purchase date. This includes faulty switches, pots, LEDs, and other internal problems. It does NOT include any sort of abuse, including damaged knobs, jacks, LED mounts, scratches and cosmetic defects, failed mods, etc. It also does not include damage sustained from a power supply, including powering with voltages or polarities other than what is listed for a pedal's specifications.

Warranty claims must include a dated proof of purchase from an authorized dealer. The customer is responsible for properly packaging the item(s) and paying shipping costs to Throne Room Pedals. Throne Room Pedals will pay shipping costs back to the customer. All parts and labor costs for repairs of products under warranty will be paid in full by Throne Room Pedals. At our discretion, we will either repair, replace or refund the items submitted for warranty.

We reserve the right to deny warranty claims to items that have sustained obvious abuse or internal tampering, or were improperly packaged by the customer during shipping.

Any repairs outside of the aforementioned warranty may be done at a very reasonable price. Contact us for details.

SUPPORT

For product support, please contact us directly before contacting your place of purchase. We'll be sure to answer any questions you have about the use of our products, or help to resolve any issues.
