STRIKING AND BEAUTIFUL

Our Acacius Collection combines reclaimed wood with weathered metal—creating a unique centerpiece for your living space. Acacius' one-of-a-kind, mixed-material styling is handcrafted by Mexican artisans, who leave panels of solid iron outside in the elements to naturally oxidize. Then, each piece of metal is moulded around the natural shape of wood veneers from ethically salvaged yucca trees.

PRODUCT DETAILS

- + Reclaimed yucca wood veneers and oxidized iron feature unique variations in color, pattern, shape, and texture, ensuring no two Acacius Tables appear exactly alike.
- + Hand-applied finishes are coated with clear polyurethane for added protection.

truly artisanal tables

Finished by artisan hands to achieve truly stunning patinas, our Acero Occasional Tables complement cool, rustic metal with the warm colors and organic textures of wood. Our artisan partners construct each tabletop from panels of solid iron that are left outside to naturally oxidize, producing an organically weathered appearance. Modern trestle table bases and matching table edges are shaped using solid alder wood and alder veneers, which are painted and lacquered to bring out the lumber's natural features and accentuate the tabletops' dark and varied tones.

product details

- ▶ Metal tabletops are handcrafted from panels of treated iron that are left outside to give them a natural, oxidized patina.
- ▶ Due to their handcrafted nature, metal surfaces feature small dimples and other features—as a result of the finishing process—which add one-of-a-kind character to each piece.
- ▶ Hand-applied finishes are weathered and coated with polyurethane for added protection.
- ▶ This collection is artisan-crafted from natural materials with hand-applied finishes. Individual pieces may vary in color, pattern, shape, and texture, making each truly unique.
- ▶ Craftsman-built table bases and tabletop edges are constructed from solid alder wood and alder veneers.

a dramatic showstopper thousands of years in the making.

Boracay occasional tables are meticulously crafted by Filipino artisans from rare century marble, grey marble, or petrified wood veneers. These highly valued materials develop unique patterns and natural coloring over centuries in remote regions of the volcanic Philippine archipelago. Our artisans select each piece by hand, shape and polish every tile, and place them, one-by-one into our mosaic tabletops. Completed surfaces are lacquered for added protection and paired with complementing metal bases to bring true natural wonder to your space.

product details

- ▶ Century Marble tabletops are crafted using century marble veneers. Highly valued for its contrasting, golden mineral streaks and veins, this ivory-colored marble is the result of an uncommon geological occurrence, in which tremendous pressure fractures the rock, allowing other minerals to fill the resulting voids.
- ▶ Petrified Wood tabletops are crafted using petrified wood veneers cut from lengths of fossilized trees, which were buried under layers of mud and ash for untold years. Each stone slice boasts shades of brown and black accentuated by the wood's natural grain.
- ▶ Grey Marble tabletops are crafted using grey marble veneers. Featuring natural variances in color, shape, pattern, and texture with unpredictable veining and mineral streaks that add character and one-of-a-kind history to each piece.
- ▶ Hand-picked materials are sustainably sourced in compliance with Philippine Environmental Regulations.
- ▶ Tabletops are hand-finished, buffed, and polished to accentuate the materials' natural colors, patterns, and textures.
- ▶ Metal table bases are finished, buffed, and polished by hand to accentuate the accompanying tabletops.
- ▶ This collection is artisan-crafted from natural materials with hand-applied finishes. Individual pieces may vary in color, pattern, shape, and texture, making each truly unique.
- ▶ Stone pieces may display natural mineral deposits, swirling, joint lines, veining, or other features that will add character to your piece without affecting its quality or performance.

Coffee Table

35MIHAELACOF2

artisan-made

Inspired by the stained interiors of red wine barrels, our beautiful Mihaela Collection is a masterfully crafted work of art. Each piece is built by a multigenerational family of artisans, using Romanian oak that has been hand-cut from the foothills surrounding our artisans' mountain village. "Vin Rosu" finishes are applied by hand—a closely guarded, exclusive process which takes up to three days to complete per piece. Using water to open wood grain allows rich color to penetrate the full thickness of wood surfaces, accentuating natural textures and organic grain patterns.

product details

- ▶ Frames are craftsman-built from solid Romanian oak—sustainably harvested by our artisans' family—cut from locally grown trees up to 250 years old.
- ▶ Coffee tabletops are made from alternating layers of Romanian oak wood and solid spruce wood to ensure the stability and longevity of every piece.
- ▶ Hand-applied "Vin Rosu" natural oil finishes are a closely guarded secret exclusive to our artisans.
- ▶ Hand-carved detailing is artfully painted to appear as metallic brass accents.
- ▶ Each finishing process takes three days to complete per piece. Using water to open the wood's grain, finishes are able to penetrate the full thickness of solid wood surfaces.

organically inspired

Pairing structured lines with stunning organic textures, our Nika collection is carefully crafted by Mexican furniture artisans to honor the lumber used in its surfaces. Artisan-applied finishes elevate the wood's natural beauty, accentuating every detail, and acrylic lacquer provides added protection and a subtle sheen. Thickly cut veneers bookmatched together and arranged consecutively allow their edges to form gaps, which are filled by epoxy resin, allowing the planks to remain straight and contributing to this collection's contemporary aesthetic.

product details

- ▶ Craftsman-built occasional tables are expertly made from solid nopo wood—sustainably grown and harvested near the Gulf of Mexico—or reclaimed, bleached, spalted oak wood.
- ▶ Wood surfaces are bookmatched and gently stained by hand to accentuate the wood's natural characteristics—highlighting unique variations in color and grain.
- ▶ Surfaces are finished with epoxy resin to fill gaps and lacquered with acrylic for added protection and subtle sheen.
- ▶ Coffee Table bases made from steel are finished with either a brass or gunmetal tone and polyurethane to complement the finished wood surfaces.
- ▶ This collection is artisan-crafted from natural materials with hand-applied finishes. Individual pieces may vary in color, pattern, shape, and texture, making each truly unique.
- ▶ Natural wood may display small splits, knots, joint lines, or other organic features that will not affect the quality or performance of your piece.
- ▶ Keep your furniture looking its best. Visit arhaus.com or speak to any Arhaus Design Consultant for care recommendations.

COFFEE TABLE

51.25" w x 39.5" d x 16" h

35OBRACOF

AN ORGANIC MASTERPIECE

Crafted by expert Mexican artisans, our unique Obra coffee table—made from rare milpa burl wood—took over three weeks to perfect. Artfully shaped and finished by hand, this table's beautiful surface was assembled using an incredibly labor-intensive process—wherein milpa burl wood was cut into thin slices, cleaned of any bark or soft, unusable wood, and sun-bleached. Finished slices were then wrapped around the table's rectangular, hardwood structure, carefully preserving the burl's arms and filling any remaining holes with metal laminate. The table's base, made from naturally oxidized iron, showcases a stunning patina of divergent tones and rustic texture.

PRODUCT DETAILS

- + This coffee table is beautifully handcrafted by expert Mexican artisans, using milpa burl wood applied to a rectangular hardwood structure atop an iron base.
- + Showcasing the burl's unique shape and organic grain abnormalities, this table's surface is crafted from thin, carefully cut slices—wrapping the burl's arms around edges.
- + An artfully sun-bleached finish creates a natural, weathered aesthetic that brings out the wood's subtle color variations.
- + The table's iron base is finished with a rustic patina by leaving the metal outside to naturally oxidize—creating stunning patterns and divergent tones.
- + Holes in the burl are filled with metal laminate finished to complement the table's iron base.
- + This piece is artisan-crafted from natural wood with hand-applied finishes, displaying organic features that add character without affecting quality or performance.
- + Keep your furniture looking its best. Visit arhaus.com or speak to any Arhaus Design Consultant for care recommendations.

inspired by post-industrial France,

Our Serena Occasional Table Collection utilizes time-worn patinas and a unique mix of materials to showcase the fortitude of classic industrial design. Antiqued sheets of brass or antiqued mirrored surfaces are placed atop oak frames, contrasting the warmth of the wood against the rustic, aged glass or metal. Supported by forged, dark iron bases, these tulip tables are a celebration of eclectic design, coalescing into a unique, chic look.

product details

- ▶ Antiqued Brass tabletops are craftsman-built using sheets of light, brass atop light burnt oak.
- ▶ Antiqued Mirror tabletops are craftsman-built using antiqued mirrored glass atop deep brown burnt oak.
- ▶ Antiqued Brass tables are accentuated by exposed nailheads.
- ▶ Forged iron table bases complement the tabletops, creating an industrial, mixed material aesthetic.

- + Hand-applied finishes are weathered and coated with polyurethane for added protection.
