Please remove 4 white silicone sheets before use. They are only used to protect the scale from shaking during shipment. If you don't remove it, the data might be effected. This sticker can be removed, too.

MORE TIME FOR COFFEE LIFE

HOW TO USE:

Quick press Power: Turn on or tare weight

Long Press Power: Turn off

Quick Press Timer: Start or pause timing

Hold Timer for 2s : tare timing

Hold Timer for 6s: Turn on or off sound

Quick Press 5 times: Turn on or off AU-brewing mode

Auto Timer Mode

You must be in Normal mode to change to Auto Timer mode!

To turn on/off Auto Timer mode, press the timer button multiple times until you hear the beep. The letter A will appear on the display when the Auto Timer Mode is on.

Prepare brewing equipment and place on the scale. Add the coffee. Short press the timer button once. The display will count down 3, 2, 1.

The weight will go to zero. As you add water the scale will sense the weight and the timer will start timing your brew.

If the brewing equipment is removed from the scale the timer will stop and the display will show the time of the brew and the weight. If you place the brewing equipment back on the scale to add more water, short press the timer button to continue the timer and weighing functions. Short press the timer button again and the timer will stop. Long press the timer button to clear the display to start a new pour over.
