

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	Brake Fluid DOT 4	
Product number	7833	
Internal identification	GHS22004	
1.2. Relevant identified uses of	f the substance or mixture and uses advised against	
Identified uses	Hydraulic fluid for use in automotive brake and clutch systems	
1.3. Details of the supplier of the	ne safety data sheet	
Supplier	Morris Lubricants Castle Foregate Shrewsbury Shropshire SY1 2EL +44 (0) 1743 232200 +44 (0) 1743 353584 sds@morris-lubricants.co.uk	
1.4. Emergency telephone nun	nber	
Emergency telephone	+44(0)1743 232200 (08.45 - 17.00 GMT)	
SECTION 2: Hazards identification	ation	
2.1. Classification of the substa Classification (EC 1272/2008) Physical hazards	ance or mixture	
Health hazards	Eve Irrit. 2 - H319 STOT RE 2 - H373	
Environmental hazards	Not Classified	
Classification (67/548/EEC or 1999/45/EC)	Xi;R36.	
2.2. Label elements		
Pictogram		

Signal word

Warning

Hazard statements

H319 Causes serious eye irritation. H373 May cause damage to organs (Kidneys) through prolonged or repeated exposure.

Precautionary statements	 P260 Do not breathe vapour/ spray. P264 Wash contaminated skin thoroughly after handling. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/ attention. P501 Dispose of contents/ container in accordance with national regulations. P301/311 If swallowed, call a poison centre or doctor/physician and have container or label to hand
Contains	2,2'-OXYBISETHANOL

Supplementary precautionary P102 Keep out of reach of children. statements

2.3. Other hazards

Product is not classed as flammable or combustible but will burn.

SECTION 3: Composition/information on ingredients

3.2. Mixtures				
2-[2-(2-BUTOXYETHOXY)ETHOXY]ETHANOL 30-60%				
CAS number: 143-22-6	EC number: 205-59	2-6	REACH registration number: 01- 2119531322-53-0000	
Classification Eye Dam. 1 - H318		Classification (67/5 Xi;R41	48/EEC or 1999/45/EC)	
2,2'-OXYBISETHANOL				10-30%
CAS number: 111-46-6	EC number: 203-87	2-2	REACH registration number: 01- 2119457857-21-0000	
Classification Acute Tox. 4 - H302 STOT RE 2 - H373		Classification (67/5 Xn;R22	48/EEC or 1999/45/EC)	
2-(2-METHOXYETHOXY)ETHANOL				1-5%
CAS number: 111-77-3	EC number: 203-90	6-6	REACH registration number: 01- 2119475100-52-0000	
Classification Repr. 2 - H361d		Classification (67/5 Repr. Cat. 3;R63	48/EEC or 1999/45/EC)	
2-(2-butoxyethoxy)ethanol				1-5%
CAS number: 112-34-5	EC number: 203-96	1-6	REACH registration number: 01- 2119475104-44-0000	
Classification		Classification (67/54	48/EEC or 1999/45/EC)	
Eye Irrit. 2 - H319		Xi;R36.		

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

Brake Fluid DOT 4

Composition comments	Blend of polyglycol ethers, glycol ether esters and polyglycols with added corrosion and oxidation inhibitors.
SECTION 4: First aid measure	95
4.1. Description of first aid mea	asures
General information	First aid personnel should wear appropriate protective equipment during any rescue.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.
Ingestion	Get medical attention immediately. If patient is conscious, wash out mouth with water and give plenty of water to drink. If medical attention is delayed and an adult has swallowed several ounces, give 90-120ml of hard liquor such as 40%v/v spirits. For children give proportionally less at a rate of 2ml/kg bodyweight. Never give anything by mouth to an unconscious person. Do not induce vomiting unless under the direction of medical personnel.
Skin contact	Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.
Eye contact	Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyelids widely. If irritation persists: Seek medical attention and bring along these instructions.
4.2. Most important symptoms	and effects, both acute and delayed
General information	See Section 11 for additional information on health hazards.
4.3. Indication of any immediat	te medical attention and special treatment needed
Notes for the doctor	Medical personnel seeking to administer first aid are referred to the services of the Poisons Information Service who can advise in such instances. There is no specific antidote and treatment of over exposure should be directed at control of symptoms and the patient's clinical condition. Due to the diethylene glycol content this material may have a mechanism of intoxication similar to ethylene glycol and treatment similar to that for ethylene glycol poisoning may help.
SECTION 5: Firefighting meas	ures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from	om the substance or mixture
Specific hazards	No special risk - combustion products may contain harmful or irritant fumes. Containers can burst violently or explode when heated, due to excessive pressure build-up.
5.3. Advice for firefighters	
Protective actions during firefighting	Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental release measures	

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Keep unnecessary and unprotected personnel away from the spillage. Avoid contact with skin, eyes and clothing. Take care as floors and other surfaces may become slippery. Wear protective clothing as described in Section 8 of this safety data sheet.
6.2. Environmental precautions	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).
6.3. Methods and material for c	containment and cleaning up
Methods for cleaning up	Contain spillage with sand, earth or other suitable non-combustible material. Small Spillages: Wipe up with an absorbent cloth and dispose of waste safely. Collect and dispose of spillage as indicated in Section 13. Flush contaminated area with plenty of water.
6.4. Reference to other section	<u>s</u>
Reference to other sections	For personal protection, see Section 8. For waste disposal, see Section 13.
SECTION 7: Handling and stor	rage
7.1. Precautions for safe handl	ing
Usage precautions	Avoid the formation of mists.
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Suitable bulk storage vessels are mild/stainless steel tanks fitted with a dry air breathing system or tight head steel drums. Do not store in lined tanks or drums. Brake fluid absorbs water from the atmosphere - always keep containers tightly closed. Avoid contamination with any other substances and in particular with mineral oils which are incompatible.
7.3. Specific end use(s)	
Specific end use(s)	Users are referred to the Specification SAE J1701 'Service Maintenance of Brake Fluids'
SECTION 8: Exposure Control	s/personal protection
8.1. Control parameters Occupational exposure limits 2,2'-OXYBISETHANOL	
Long-term exposure limit (8-ho Short-term exposure limit (15-r	ur TWA): WEL 23 ppm 101 mg/m³ ninute): WEL
2-(2-METHOXYETHOXY)ETH	ANOL

PNEC	 Water, Fresh water; 12 mg/l Water, Marine water; 1.2 mg/l Water, Intermittent release; 12 mg/l STP; 10000 mg/l Sediment (Freshwater); 44.4 mg/kg/sediment dw Sediment (Marinewater); 0.44 mg/kg/sediment dw Soil; 2.44 mg/kg

8.2. Exposure controls

Appropriate engineering controls	Not necessary under normal conditions. If fluid is being heated or atomised, local exhaust ventilation with filter/scrubber is recommended.
Eye/face protection	Personal protective equipment for eye and face protection should comply with European Standard EN166. Provide eyewash station.
Hand protection	To protect hands from chemicals, gloves should comply with European Standard EN374. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. The selected gloves should have a breakthrough time of at least 8 hours.
Other skin and body protection	Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible.
Hygiene measures	Good personal hygiene procedures should be implemented.
Respiratory protection	Not necessary under normal conditions.
Environmental exposure controls	Keep container tightly sealed when not in use.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Appearance	Clear liquid.
рН	7.0 to 11.50
Melting point	<-50°C
Initial boiling point and range	>250°C @
Flash point	> 93°C PMCC (Pensky-Martens closed cup).
Vapour pressure	<2 mbar @ 20°C
Relative density	1.010-1.060 @ 20°C
Solubility(ies)	Miscible with water. Miscible with the following materials: Ethanol.
Partition coefficient	:<2
Auto-ignition temperature	>300°C
Decomposition Temperature	>300°C
Viscosity	5-10 cSt @ 20°C
Explosive properties	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	
SECTION 10: Stability and read	ctivity
10.1. Reactivity	
Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous r	eactions
Possibility of hazardous reactions	Glycol Ethers can form peroxides on storage. Glycol Ethers can react with light metals with the evolution of hydrogen.

10.4. Conditions to avoid	
Conditions to avoid	Do not distil to dryness without testing for peroxide formation.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents. For user safety, brake fluid should never be contaminated with any other substance.
10.6. Hazardous decompositio	on products
Hazardous decomposition products	None known.
SECTION 11: Toxicological int	formation
11.1. Information on toxicologi	cal effects
Acute toxicity - oral Acute toxicity oral (LD₅₀ mg/kg)	5,000.0
Species	Rat
Notes (oral LD₅o)	Product is of low acute oral toxicity. However, if any significant amount is ingested, there is a risk of renal damage which in extreme cases could lead to kidney failure, coma or death. Other symptoms of overexposure include Central Nervous System effects, abdominal discomfort, metabolic acidosis, headache and nausea.
Acute toxicity - dermal Acute toxicity dermal (LD₅₀ mg/kg)	3,000.0
Species	Rabbit
Notes (dermal LD₅₀)	Acute percutaneous toxicity is low however massive contact with damaged skin could result in the absorption of harmful amounts.
Acute toxicity - inhalation Notes (inhalation LC₅₀)	The product is unlikely to present any significant inhalation hazard at ambient temperatures and under normal conditions of use.
Skin corrosion/irritation Human skin model test	Based on available data the classification criteria are not met. Repeated contact may de-fat the skin and cause dermatitis.
Serious eye damage/irritation Serious eye damage/irritation	Serious eye irritation
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Genotoxicity - in vivo	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.

Reproductive toxicity	
Reproductive toxicity - fertility	Major ingredients have not been shown to cause significant fertility or development problems at levels which are not themselves toxic to the animal concerned.
Reproductive toxicity - development	One minor ingredient - methyl diglycol - has been shown to affect foetus development in some studies and is classified as H631d.
Specific target organ toxicity - r	repeated exposure
STOT - repeated exposure	There are no reports of long term adverse effects in man. For one ingredient - diethylene glycol - human STOT effects on the kidney and gastrointestinal tract have been reported.
Aspiration hazard	
Aspiration hazard	Not anticipated to present an aspiration hazard, based on chemical structure.
SECTION 12: Ecological Inform	nation
12.1. Toxicity	
Acute toxicity - fish	LC₅₀, 96 hours: >100 mg/l, Onchorhynchus mykiss (Rainbow trout)
Acute toxicity - aquatic invertebrates	Not determined but expected to be virtually non toxic.
Acute toxicity - microorganisms	Not determined but expected to be virtually non toxic.
12.2. Persistence and degrada	bility
Persistence and degradability	Product is inherently biodegradable and is expected to be readily biodegradable based on ingredients.
Biodegradation	Water - Degradation 100%: 21 days
12.3. Bioaccumulative potentia	1
Bioaccumulative potential	The product is not bioaccumulating.
Partition coefficient	:<2
12.4. Mobility in soil	
Mobility	The product is soluble in water. Soluble in water and will partition to aqueous phase. Volatilisation from water to air not expected. Mobile in soil until degraded.
12.5. Results of PBT and vPvB	assessment
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current EU criteria.
12.6. Other adverse effects	
Other adverse effects	Not relevant.
SECTION 13: Disposal conside	erations
13.1. Waste treatment methods	5
General information	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Disposal methods	Controlled incineration or recycling is recommended. Do not dispose of to landfill or drains. It is recommended that contaminated packaging is either incinerated or cleaned and sent for recycling.
Waste class	European Waste Catalogue (EWC) number: 16 01 13

SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

Inventories

EU - EINECS/ELINCS All the ingredients are listed or exempt.

Canada - DSL/NDSL

All the ingredients are listed or exempt.

US - TSCA All the ingredients are listed or exempt.

Australia - AICS

All the ingredients are listed or exempt.

Japan - MITI All the ingredients are listed or exempt.

Korea - KECI

All the ingredients are listed or exempt.

China - IECSC

All the ingredients are listed or exempt.

Philippines – PICCS

All the ingredients are listed or exempt.

New Zealand - NZIOC

All the ingredients are listed or exempt.

SECTION 16: Other information

Revision date	05/06/2017
Revision	2
Supersedes date	04/11/2015
SDS number	22004
Risk phrases in full	R22 Harmful if swallowed. R36 Irritating to eyes. R41 Risk of serious damage to eyes. R63 Possible risk of harm to the unborn child.
Hazard statements in full	 H302 Harmful if swallowed. H318 Causes serious eye damage. H319 Causes serious eye irritation. H361d Suspected of damaging the unborn child. H373 May cause damage to organs (Kidneys) through prolonged or repeated exposure. H373 May cause damage to organs (Kidneys) through prolonged or repeated exposure if swallowed.
