

## Safety data sheet

### SECTION 1. Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Code: CS0016  
 Product name: BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: cosmetic use

#### 1.3. Details of the supplier of the safety data sheet

Name: Universal Beauty Products S.r.l.  
 Full address: Via R. Gessi 14/16  
 District and Country: 25135 Brescia (BS)  
 ITALIA  
 Tel.: +39(0) 0303367069  
 Fax.: +39(0) 0303367069

e-mail address of the competent person

responsible for the Safety Data Sheet: info@universalbeautyproducts.it  
 Product distribution by: Universal Beauty Products S.r.l.

#### 1.4. Emergency telephone number

For urgent inquiries refer to:  
 Pavia 0382/24444;  
 Milano 02/66101029;  
 Bergamo 800 883300;  
 Firenze 055/7947819;  
 Roma Gemelli 06/3054343;  
 Roma Umberto I 06/49978000;  
 Napoli 081/7472870;

### SECTION 2. Hazards identification.

#### 2.1. Classification of the substance or mixture.

The product is classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety datasheet that complies with the provisions of EC Regulation 1907/2006 and subsequent amendments. Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

Hazard classification and indication:

|  |      |  |
|--|------|--|
| Eye irritation, category 2   | H319 | Causes serious eye irritation.                     |
| Skin sensitization, category 1                                     | H317 | May cause an allergic skin reaction.               |
| Hazardous to the aquatic environment, chronic toxicity, category 3 | H412 | Harmful to aquatic life with long lasting effects. |

#### 2.2. Label elements.

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

## BOND RESTRUCTURING AND PROTECTING HAIR &amp; SCALP TREATMENT

Signal words:                Warning

## Hazard statements:

**H319**                        Causes serious eye irritation.  
**H317**                        May cause an allergic skin reaction.  
**H412**                        Harmful to aquatic life with long lasting effects.

## Precautionary statements:

**P264**                        Wash . . . thoroughly after handling.  
**P273**                        Avoid release to the environment.  
**P280**                        Wear protective gloves / eye protection / face protection.  
**P302+P352**                IF ON SKIN: wash with plenty of water / . . .  
**P333+P313**                If skin irritation or rash occurs: Get medical advice / attention.

**2.3. Other hazards.**

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

**SECTION 3. Composition/information on ingredients.****3.1. Substances.**

INGREDIENTS: AQUA (WATER, EAU), CETEARYL ALCOHOL, COCOS NUCIFERA (COCONUT) OIL, GLYCERIN, CETRIMONIUM CHLORIDE, MALTODEXTRIN, PANTHENOL, POLYAMINO SUGAR CONDENSATE, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, BISABOLOL, NIACINAMIDE, PUNICA GRANATUMEXTRACT, ALOE BARBADENSIS LEAF JUICE, HYPERICUMPERFORATUM FLOWER/LEAF/STEMEXTRACT, CALENDULA OFFICINALIS FLOWER EXTRACT, ETHYLHEXYLGLYCERIN, PHENOXYETHANOL, LINALOOL, LIMONENE, GERANIOL, COUMARIN, CITRIC ACID, SODIUM BENZOATE, POTASSIUM SORBATE, PARFUM (FRAGRANCE).

**3.2. Mixtures.**

Contains:

**BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT**

Note: Upper limit is not included into the range.

The full wording of hazard (H) phrases is given in section 16 of the sheet.

**SECTION 4. First aid measures.****4.1. Description of first aid measures.**

**EYES:** Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

**SKIN:** Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

**INGESTION:** Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

**INHALATION:** Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

**4.2. Most important symptoms and effects, both acute and delayed.**

For symptoms and effects caused by the contained substances, see chap. 11.

**4.3. Indication of any immediate medical attention and special treatment needed.**

Information not available.

**SECTION 5. Firefighting measures.****5.1. Extinguishing media.****SUITABLE EXTINGUISHING EQUIPMENT**

The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray.

**UNSUITABLE EXTINGUISHING EQUIPMENT**

None in particular.

**5.2. Special hazards arising from the substance or mixture.****HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE**

Do not breathe combustion products.

**5.3. Advice for firefighters.****GENERAL INFORMATION**

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

**BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT****SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS**

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

**SECTION 6. Accidental release measures.****6.1. Personal precautions, protective equipment and emergency procedures.**

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

**6.2. Environmental precautions.**

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

**6.3. Methods and material for containment and cleaning up.**

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Check incompatibility for container material in section 7. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

**6.4. Reference to other sections.**

Any information on personal protection and disposal is given in sections 8 and 13.

**SECTION 7. Handling and storage.****7.1. Precautions for safe handling.**

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

**7.2. Conditions for safe storage, including any incompatibilities.**

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.

**7.3. Specific end use(s).**

Information not available.

## BOND RESTRUCTURING AND PROTECTING HAIR &amp; SCALP TREATMENT

**SECTION 8. Exposure controls/personal protection.****8.1. Control parameters.****Cetrimonium Chloride**

Predicted no-effect concentration - PNEC.

|  |         |       |
|--|---------|-------|
| Normal value in fresh water            | 0,00068 | mg/l  |
| Normal value in marine water           | 0,00068 | mg/l  |
| Normal value for fresh water sediment  | 9,27    | mg/kg |
| Normal value for marine water sediment | 0,927   | mg/l  |
| Normal value of STP microorganisms     | 0,4     | mg/l  |

**Health - Derived no-effect level - DNEL / DMEL**

| Route of exposure | Effects on consumers. |                |               | Effects on workers |                |               | Chronic local | Chronic systemic |
|-------------------|-----------------------|----------------|---------------|--------------------|----------------|---------------|---------------|------------------|
|                   | Acute local           | Acute systemic | Chronic local | Acute local        | Acute systemic | Chronic local |               |                  |
| Oral.             |                       |                | VND           | 2,83 mg/kg         |                |               |               |                  |
| Inhalation.       |                       |                | VND           | 0,98 mg/m3         |                |               | VND           | 3,32 mg/m3       |
| Skin.             |                       |                | VND           | 2,83 mg/kg<br>bw/d |                |               | VND           | 4,7 mg/kg        |

Legend:

VND = hazard identified but no DNEL/PNEC available ; NEA = no exposure expected ; NPI = no hazard identified.

**8.2. Exposure controls.**

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration. Personal protective equipment must be CE marked, showing that it complies with applicable standards.

Provide an emergency shower with face and eye wash station.

**HAND PROTECTION**

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

**SKIN PROTECTION**

Wear category II professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

**EYE PROTECTION**

Wear airtight protective goggles (see standard EN 166).

**RESPIRATORY PROTECTION**

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

**ENVIRONMENTAL EXPOSURE CONTROLS.**

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with

**BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT**

environmental standards.

Product residues must not be indiscriminately disposed of with waste water or by dumping in waterways.

**SECTION 9. Physical and chemical properties.****9.1. Information on basic physical and chemical properties.**

|  |                     |
|--|---------------------|
| Appearance                             | creamy              |
| Colour                                 | white               |
| Odour                                  | characteristic      |
| Odour threshold.                       | Not available.      |
| pH.                                    | 3.0- 4.0            |
| Melting point / freezing point.        | Not available.      |
| Initial boiling point.                 | Not available.      |

| VOC (Directive 1999/13/EC) : | 0 |
| VOC (volatile carbon) :      | 0 |

**SECTION 10. Stability and reactivity.****10.1. Reactivity.**

There are no particular risks of reaction with other substances in normal conditions of use.

**10.2. Chemical stability.**

The product is stable in normal conditions of use and storage.

**10.3. Possibility of hazardous reactions.**

No hazardous reactions are foreseeable in normal conditions of use and storage.

**BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT****10.4. Conditions to avoid.**

None in particular. However the usual precautions used for chemical products should be respected.

**10.5. Incompatible materials.**

Information not available.

**10.6. Hazardous decomposition products.**

Information not available.

**SECTION 11. Toxicological information.****11.1. Information on toxicological effects.**

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

Acute effects: stinging eyes. Symptoms may include: rubescence, edema, pain and lachrymation. Ingestion may cause health problems, including stomach pain and sting, nausea and sickness.

Upon contact with skin, this product causes sensitization (dermatitis). Dermatitis derives from skin irritation on the areas which repeatedly come into contact with the sensitizing agent. Cutaneous lesions may include: erythemas, edemas, papules, vesicles, pustules, scurries, ulcerations and exudative phenomena, whose intensity varies according to illness seriousness and affected areas. Erythemas, edemas and exudative phenomena prevail during the acute phase. Scurfy skin, dryness, ulcerations and skin thickening prevail during the chronic phase.

Cetrimonium Chloride

LD50 (Oral).1550 mg/kg Metodo: Linee Guida 401 per il Test dell'OECD

LD50 (Dermal).1821 mg/kg metodo di calcolo

Cetearyl Alcohol

LD50 (Oral).> 5000 mg/kg

**SECTION 12. Ecological information.**

This product is dangerous for the environment and the aquatic organisms. In the long term, it have negative effects on aquatic environment.

**12.1. Toxicity.**

Cetrimonium Chloride

LC50 - for Fish. > 0,7 mg/l/96h

EC50 - for Algae / Aquatic  
Plants. 0,08 mg/l/72h

EC10 for Algae / Aquatic  
Plants. 0,104 mg/l/72h

**12.2. Persistence and degradability.**

Cetrimonium Chloride

Rapidly biodegradable.

**BOND RESTRUCTURING AND PROTECTING HAIR & SCALP TREATMENT****12.3. Mobility in soil.**

Information not available.

**12.4. Results of PBT and vPvB assessment.**

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

**12.5. Other adverse effects.**

Information not available.

**SECTION 13. Disposal considerations.****13.1. Waste treatment methods.**

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

**SECTION 14. Transport information.****14.1. UN number.**

Not applicable.

**14.2. UN proper shipping name.**

Not applicable.

**14.3. Transport hazard class(es).**

Not applicable.

**14.4. Packing group.**

## BOND RESTRUCTURING AND PROTECTING HAIR &amp; SCALP TREATMENT

Not applicable.

**14.5. Environmental hazards.**

Not applicable.

**14.6. Special precautions for user.**

Not applicable.

**14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code.**

Information not relevant.

**SECTION 15. Regulatory information.****15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.**

Seveso category.                      Cosmetic product, not relevant

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006.

Product.  
Point.                                      3

Substances in Candidate List (Art. 59 REACH).

None.

Substances subject to authorisation (Annex XIV REACH).

None.

Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012:

None.

Substances subject to the Rotterdam Convention:

None.

Substances subject to the Stockholm Convention:

None.

## BOND RESTRUCTURING AND PROTECTING HAIR &amp; SCALP TREATMENT

Healthcare controls.

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

**15.2. Chemical safety assessment.**

No chemical safety assessment has been processed for the mixture and the substances it contains.

**SECTION 16. Other information.**

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

|                          |  |
|--------------------------|--|
| <b>Acute Tox. 3</b>      | Acute toxicity, category 3   |
| <b>Acute Tox. 4</b>      | Acute toxicity, category 4   |
| <b>Skin Corr. 1B</b>     | Skin corrosion, category 1B  |
| <b>Skin Corr. 1C</b>     | Skin corrosion, category 1C  |
| <b>Eye Dam. 1</b>        | Serious eye damage, category 1                                     |
| <b>Eye Irrit. 2</b>      | Eye irritation, category 2   |
| <b>Skin Sens. 1</b>      | Skin sensitization, category 1                                     |
| <b>Aquatic Acute 1</b>   | Hazardous to the aquatic environment, acute toxicity, category 1   |
| <b>Aquatic Chronic 1</b> | Hazardous to the aquatic environment, chronic toxicity, category 1 |
| <b>Aquatic Chronic 3</b> | Hazardous to the aquatic environment, chronic toxicity, category 3 |
| <b>H301</b>              | Toxic if swallowed.  |
| <b>H311</b>              | Toxic in contact with skin.  |
| <b>H331</b>              | Toxic if inhaled.  |
| <b>H302</b>              | Harmful if swallowed.  |
| <b>H314</b>              | Causes severe skin burns and eye damage.                           |
| <b>H318</b>              | Causes serious eye damage.   |
| <b>H319</b>              | Causes serious eye irritation.                                     |
| <b>H317</b>              | May cause an allergic skin reaction.                               |
| <b>H400</b>              | Very toxic to aquatic life.  |
| <b>H410</b>              | Very toxic to aquatic life with long lasting effects.              |
| <b>H412</b>              | Harmful to aquatic life with long lasting effects.                 |
