# LUMINAIRE | OPEN UP

BY ZOE BANOŽA

Design visionary company [Luminaire](#), founded in Miami in 1974, opens their first Los Angeles showroom to the public today, after hosting an evening celebrating new beginnings last night.

Luminaire founders Nasir and Nargis Kassamali hosted, and guests drank champagne while admiring and lounging upon some of the elegant and bold pieces of furniture now available for sale. Some of the guests included art director Giulio Cappellini and the actor Fabio.

Hors d'oeuvres by James Beard-nominated chef [Josef Centeno](#) floated round the space on trays, and guests ate and watched from the terrace while dancers performed writhing and deeply primordial choreography by Grammy-nominated Ryan Heffington below the staircase.

The Los Angeles Luminaire showroom is located at 8840 Beverly Blvd in West Hollywood.
