

## HOW TO FOLD

# Premium Magnetic Gift Box

Thanks for purchasing NEON's Premium Magnetic Gift Boxes!

Our gift boxes are delivered flat-packed, so here's a handy step-by-step guide on how to correctly fold them. Once you learn how, you can be assembling these in as little as 20 seconds!

### STEP 1

Remove the sticky tabs on all four corners of the box.

### STEP 2

Take hold of the centre flaps of the box as pictured above. Gently pull the flaps open and the box should unfold into shape.

### STEP 3

Keep pulling the flaps open and you should see the box start to take shape.

### STEP 4

Once the box is unfolded, begin sticking the corners together.

### STEP 5

Make sure you press down the adhesive of every corner to ensure a strong assembly of the premium gift boxes.

### STEP 6

Your premium magnetic gift box is now ready to use!
