ID

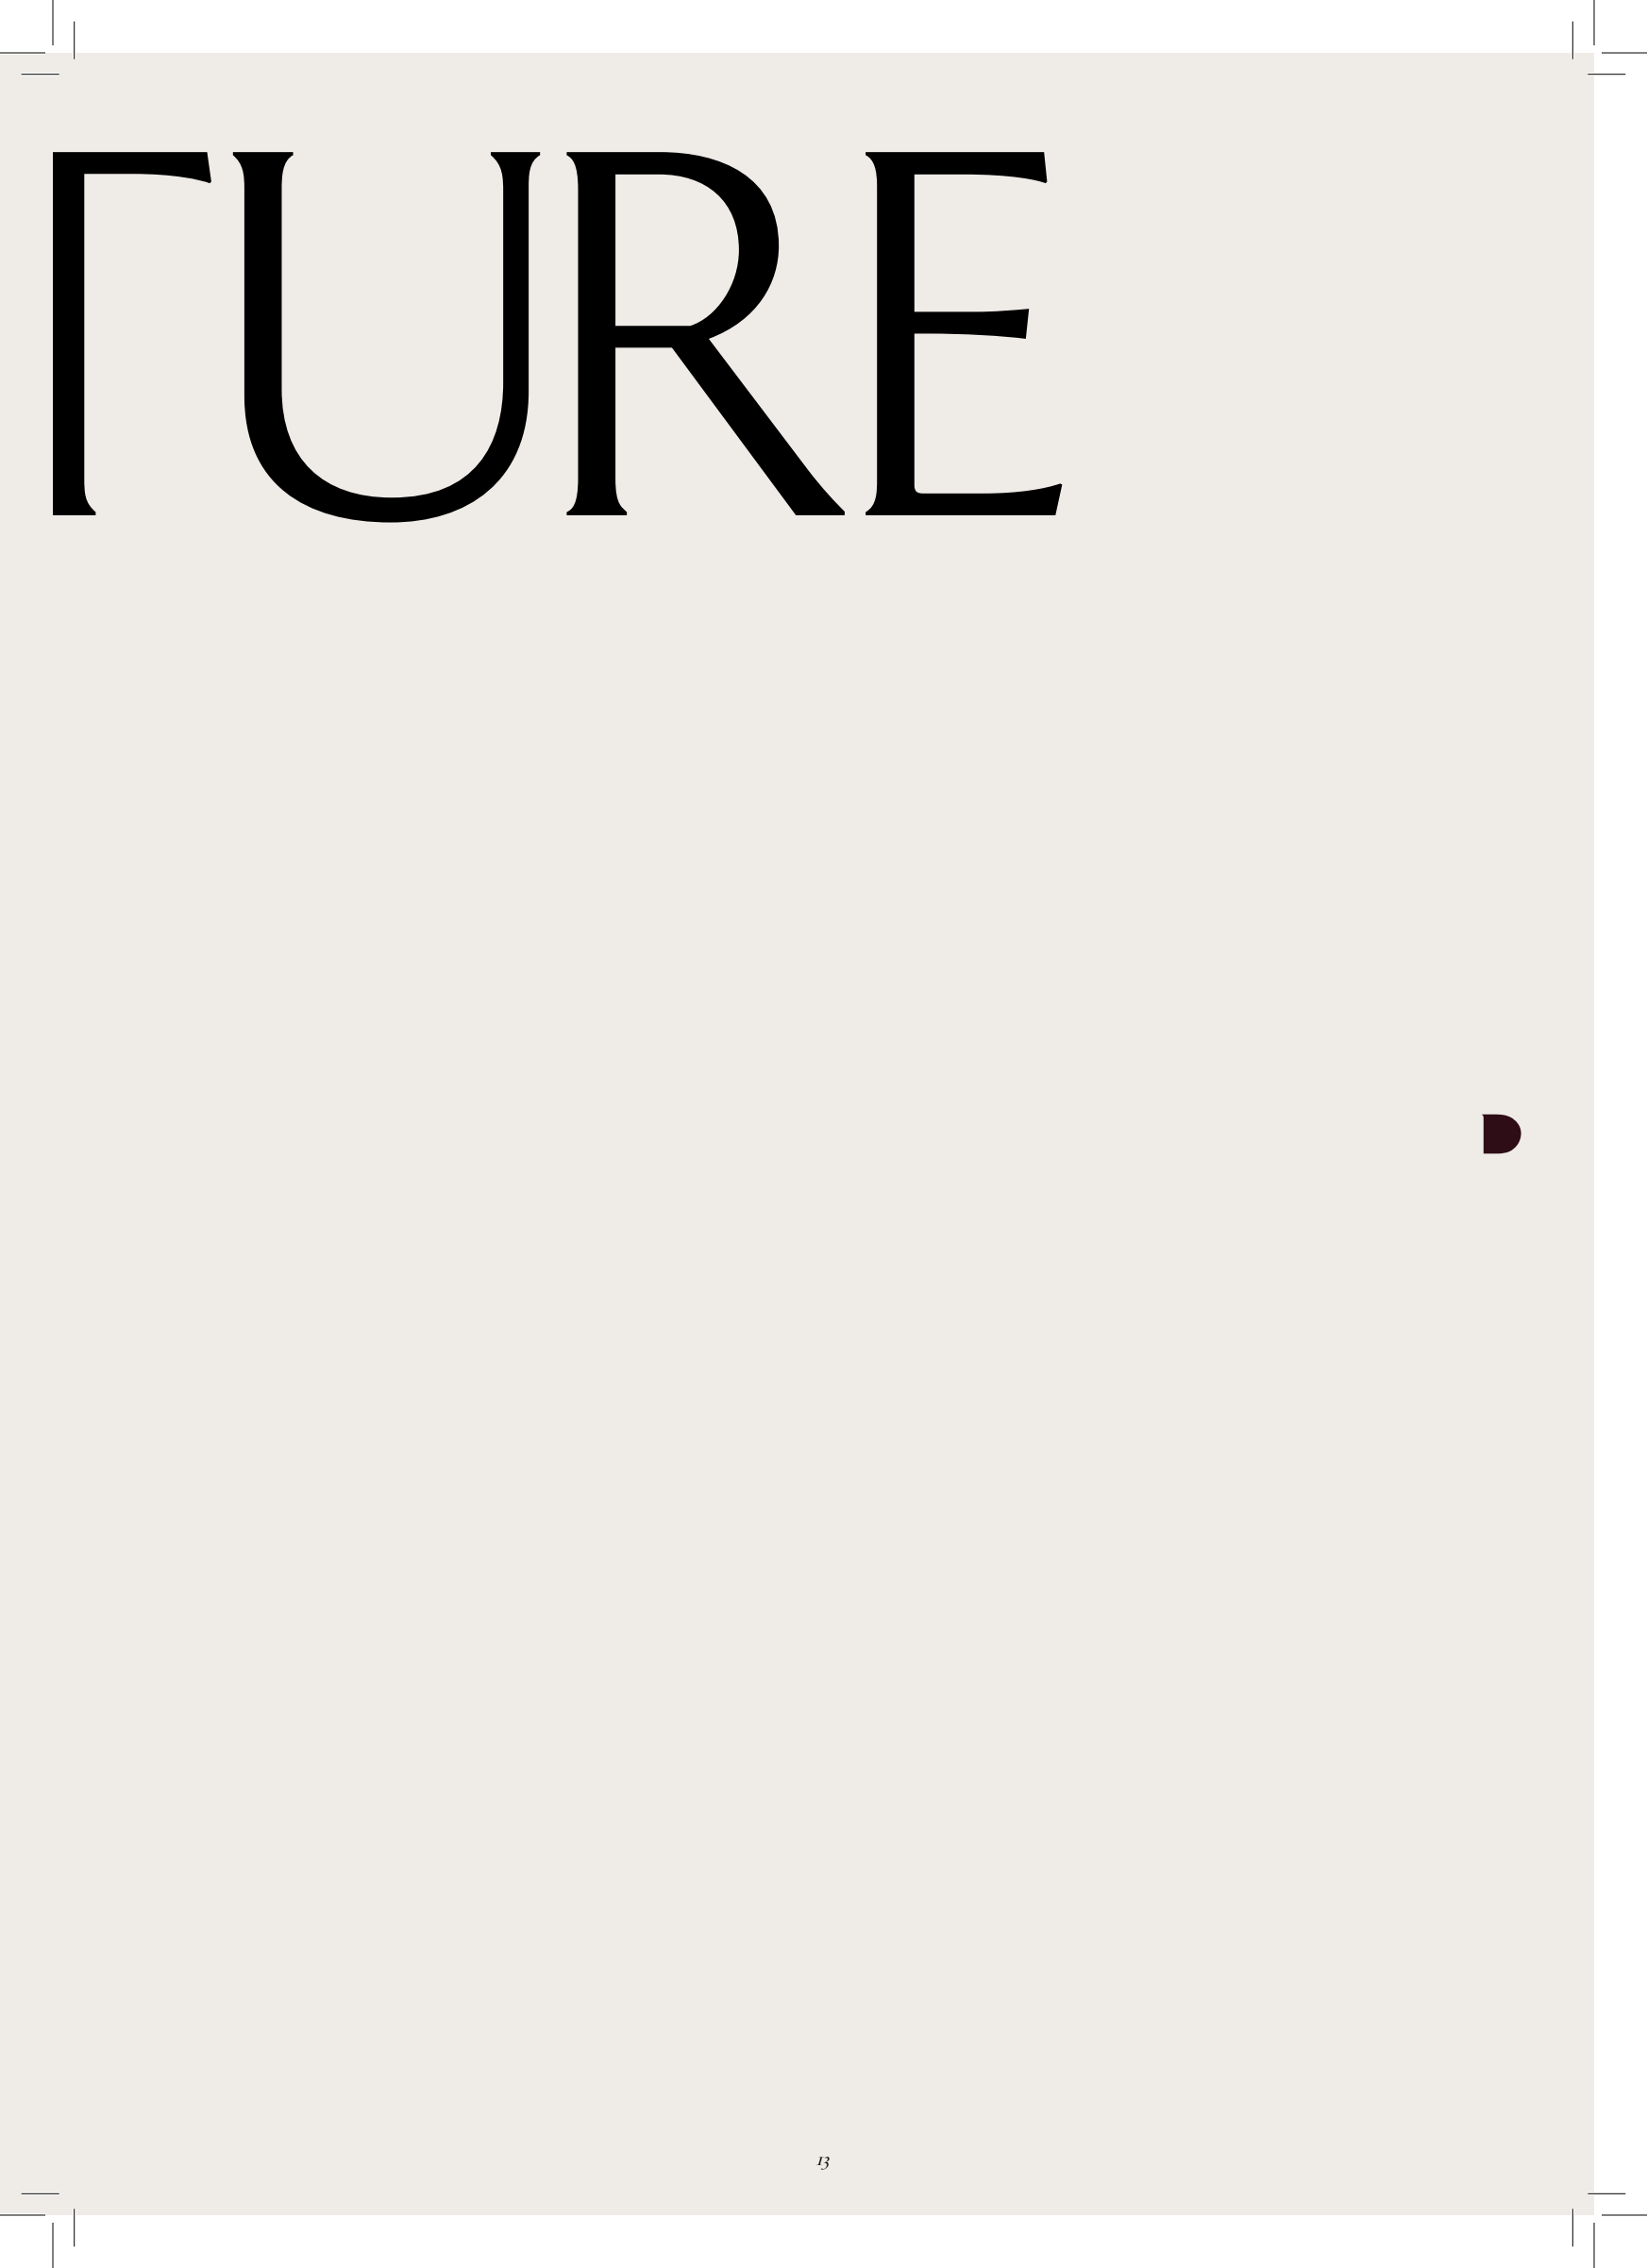

In 2011, Edin and Lina Kjellvertz launched Dusty Deco as a platform for curating vintage furniture, interior accessories and art. After having traveled the world and browsing flea markets for the most unique pieces, their home and storages quickly filled up to the brim with rare designs.

What had started as a small scale passion project was now growing into a loyal fan base and proper retail space in their hometown of Stockholm.

Ten years later, Edin and Lina began drafting a new chapter in the brand's history when closing the doors to its vintage business, instead launching their own collection of furniture, rugs and details. Today Dusty Deco is a contemporary design brand, creating pieces with just as much storytelling, originality and passion for craftsmanship as the vintage finds that originally inspired the couple to start their company.
