Parts & Operation

Bottom Grinder

Spout

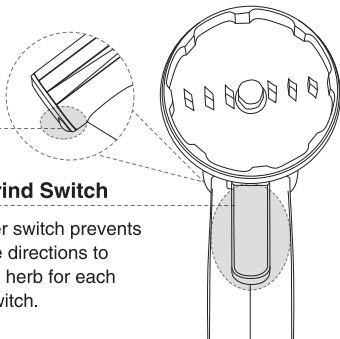

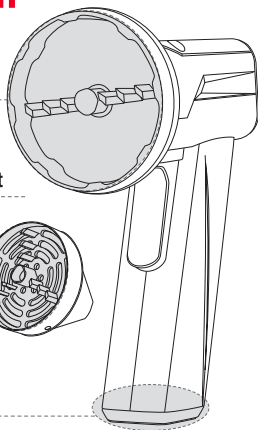

Top Grinder

USB Charging Port & LED

Stand

Forward & Reverse Grind Switch

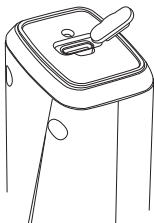

The forward/reverse Rocker switch prevents jams and clogging. Change directions to break up particularly dense herb for each release and press of the switch.

USB Charging (V3)

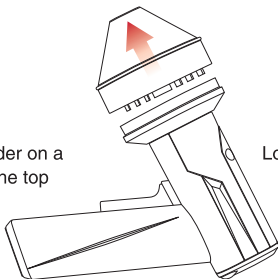

Plug the supplied USB cord/lead into the USB-C port at the base of the Auto9 Grinder and into a suitable USB Type-A power output or a mobile cell phone charger or laptop port (typically with a 5V 2.1A output).

A full charge takes 2-3 hours. The charging LED changes from Red to Green when complete.

Step 1

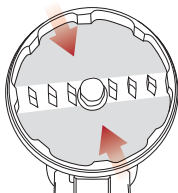

Place the Auto9 Grinder on a flat surface, remove the top grinder head.

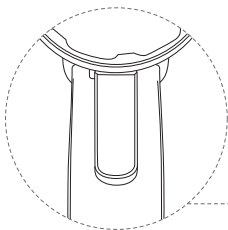

Loading Position

Step 2

For optimal results, divide your herb between the two cavities in the bottom grinder. Then firmly close the grinder sections together. The upper and lower grinder heads should meet completely flat.

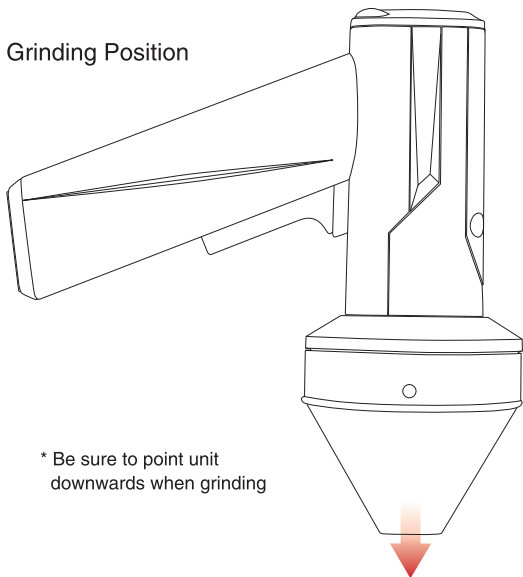

Step 3

Point your Auto9 Grinder in a downward direction and press the grind switch. For best result, regularly alternate between directions by pressing and releasing the switch until you have a smooth grinding rotation.

Grinding Position

* Be sure to point unit downwards when grinding

Cleaning & Maintenance

Use the cleaning accessories after each use for a jam and blockage free grind.

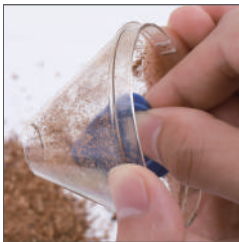

Carefully separate the spout from the top grinder for easier cleaning

Optimal grinding requires optimal cleaning

Grinding head and spout disassembles

Clean-thru for a jam free grind

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed including the following:

1. Read all instructions.
2. Portable – To protect against risk of electrical shock do not put appliance in water or other liquid.
